## LEAGUE FIGHT TO BE PUT OFF UNTIL SEPTEMBER

Leaders Agree to Ask Tomorrow That Germany's Application Be Laid Over for Next Meeting.

## FAITH IN LOCARNO IS REAFFIRMED

Spain Supports Move for Delay—Brazil's Demand for Permanent Seat Backed by Italy.

GENEVA, Switzerland, March 16.—The leaders of the Council of the League of Nations today agreed to postpone the election of Germany to the League until September.

Faced by the difficulty of Brazil's continued demand for a permanent Council seat, the leaders agreed that Sir Austen Chamberlain, the British Foreign Secretary, should propose in tomorrow's session of the Assembly that the whole question of Germany's admission to the League and the enlargement of the Council should be put off until the September session.

Work of Locarno "Intact."

The signatories of the Locarno agreements issued an official communique tonight stating that if obstacles render impossible the admission of Germany to the League, no signatories "are happy to recognize that the work of peace realized at Locarno remains intact."

It is reported that the Spaniards furthered the movement for adjournment in order to gain time in which to press the Spanish claim for a permanent Council seat.

Before the leaders' decision became known, Premier Briand of France told French correspondents that Germany had agreed not to withdraw her application for election to the League and that this would be considered in September.

The communique expresses fear that the difficulties in the Council could persist, but says the signatories are convinced that these will be surmounted on the occasion of the next League assembly meeting and that an agreement concerning the conditions of Germany's entrance will be realized.

The decision was taken at a meeting of the leaders, attended by the Allies and other members of the Council, and also the Polish Premier, Count Skrzyński.

Brazil's answer to the Council's appeal for a change in her attitude toward the plans for Germany to be elevated to the Council alone had not arrived, but the leaders feared it would prove to be a refusal. Moreover, it was reported that some Governments were trying to influence her to reply negatively.

Latin-Americans Meet.

Disquieting rumors spread through the jobbies of the League of Nations Palace today that Italy was prompting Brazil in her insistence upon receiving a permanent seat in the League Council at the same time as Germany.

It was reported that either Premier Mussolini would make a statement or a speech in Rome demanding that Germany cease attempting to thwart another power's effort to obtain a permanent seat at the same time as the Italian representatives here might read a statement inspired by Mussolini.

Italy's interests were described as demanding the continued friendship of Brazil, where a sizeable portion of Italy's surplus population emigrates annually.

The representatives of the Latin-American members of the League met again today to discuss the Council crisis. Afonso de Melo Franco, the Brazilian representative, explained Brazil's reasons for adopting her present attitude.

The Latin-American delegates' meeting adopted a resolution asking Senator Mello Franco and Alberto N. Guani, the Uruguayan member of the council, to convey to the council the unanimous conviction of all the delegates from American nations that Latin-American should have a larger and more equitable representation in the League.

## 28 COUNTS IN CHARGES AGAINST JUDGE ENGLISH

House Judiciary Committee Will Receive Thursday Draft of "High Misdemeanors" on Which It Urges Impeachment.

By a Staff Correspondent of the Post-Dispatch.

WASHINGTON, March 16.—Twenty-eight counts on "high misdemeanor" charges against Federal Judge George W. English of the Eastern District of Illinois will be submitted to the House Judiciary Committee Thursday morning by the subcommittee appointed last week to draw up the articles of impeachment.

At the meeting of the Judiciary Committee today the subcommittee reported it had not completed its work and desired until Thursday to finish the tentative draft of the articles.

Action Next Monday.

Chairman Graham said it was probable that the draft would be approved at once by the full committee, in which event the Judiciary Committee's report to the House, recommending impeachment, will be made Thursday or Friday. It can be called up for action at any time after it is made.

A vote to accept the report will be a vote of impeachment.

Majority Leader Tilson said today that in the event the report is received this week by the House he thought it likely that it would be called up for action Monday.

The debate would occupy two or three days, but a vote of impeachment could be expected next week.

A special session of the Senate will be called by President Coolidge if the House impeaches Judge English, and the jurist's trial before the Senate probably would last at least three weeks.

Subcommittee Members.

The subcommittee appointed to draft the articles of impeachment is composed of Representative Ira G. Horsey of Maine, a member of the original investigating committee of seven that took evidence in St. Louis, East St. Louis, Centralia, Ill., and Washington; and Representatives Montague of Virginia and Stobbs of Massachusetts.

Testimony taken by a committee disclosed arbitrary disregard by Judge English of attorneys without warrant of law, tyrannical acts towards State attorneys and Sheriffs whom he hailed before him without warrant of law and lectured for not enforcing the injunctions of his court, the appointment of his Referee in Bankruptcy to lucrative receiverships and permitting or ignoring the operation of a bankruptcy ring by which estates were looted, the acceptance for himself of favors from banks where bankruptcy funds were deposited and the payment to one of his sons of interest on bankruptcy funds.

Testimony of Accepting Money.

There was also testimony that he accepted money from his Referee in Bankruptcy, part of a fee paid by a defendant in his court; that he used profanity from the bench, and that he received his powers in suspending the jail sentence of a convicted bootlegger who had paid his Referee in Bankruptcy a fee of \$2500.

## LEAGUE IN QUEST OF DRUG TO SMASH QUININE MONOPOLY

Substitute for Malaria Specific Needed for Effective Action, Say Experts.

Special to the Post-Dispatch.

GENEVA, March 16.—The monopoly of the quinine market held by the Netherlands must be broken, say the health experts of the League of Nations. At present the most effective remedy against malaria is quinine made from the cinchona bark grown in the Dutch East Indies, which furnish nine-tenths of the world's supply.

The production of quinine in the Netherlands possessions is in the hands of a syndicate which fixes the price on the Amsterdam market. A return of 36 per cent is paid on the capital invested.

Requests for the Government to regulate the actions of the "quinine ring" have met with the reply that the quinine interests are merely safeguarding the legitimate rights of the industry.

The health officials of the League are concentrating their attention on the development of a suitable substitute for quinine. Cinchonine, a drug made from a combination of several cinchona barks from trees growing elsewhere than in the East Indies, is under consideration as such a substitute.

## 27,000 SEALS A DAY'S CATCH

Six Steamers Haul in Patch Discovered by Airplane.

ST. JOHN'S, Nfld., March 16.—Six steamers of the Newfoundland sealing fleet have reached the patch and discovered last week by airplane and killed 27,000 seals. The patch was found to be somewhat smaller than was at first reported, but contained a good day's haul for the steamers as a first on the scene.

**PROHIBITION BUREAU BILL  
APPROVED BY COMMITTEE**

WASHINGTON, March 16.—The administration bill to create a Bureau of Prohibition in the Treasury Department was approved today by the House Ways and Means Committee.

The measure also would provide for a Bureau of Customs and a Commissioner of Customs and a Commissioner of Customs would be appointed at salaries of \$8000 a year.

Assistant Secretary Andrews, in charge of prohibition enforcement, proposed this reorganization of the prohibition enforcement machinery. At present the prohibition personnel is under the Internal Revenue Bureau.

**HIGHER COURT ALLOWS  
BANKERS' LIFE APPEAL**

Officers of Illinois Insurance Company Win Writ Against Receivership.

Special to the Post-Dispatch.

CHICAGO, March 16.—Judge Albert Anderson, in United States Circuit Court of Appeals, today granted the petition of present officers of the Illinois Bankers' Life Association for a writ of superadeas, setting aside the order of the lower court appointing a receiver.

Federal Judge FitzHenry at Springfield last week granted a receivership for the company on application of policy holders. He denied the officers' request for superadeas. Granting of superadeas today by Judge Anderson permits the company to furnish bond for the continued conduct of the business by the directors, who would have been ousted under a receivership.

As has been told, the receivership was granted upon the allegations of 13 St. Louis policy holders that directors of the company were conspiring to turn over its assets to a new company of which they were sole owners and later to turn over the new company to some old-line company and to receive for their services a personal commission of \$125,000, or \$150,000 each.

Judge Anderson said receivership proceedings were unnecessary under proper legal procedure in this case, and a receivership would do irreparable damage to the company's reputation and business. He said a temporary injunction, restraining the present directors from removing assets or changing contracts or entering into new contracts, would be sufficient.

Attorney O. M. Hill of St. Louis, representing the plaintiffs, said he probably would follow the Judge's suggestion and seek an injunction, instead of a receivership.

The directors are W. H. Woods, J. R. Ebersole, R. M. Work, F. M. Hallam and A. T. Sawyer. Offices of the association are at Monmouth, Ill.

The association has 70,000 members, an aggregate of \$116,000,000 of insurance upon the lives of its members, has accumulated assets of more than \$3,000,000 and has a surplus of \$4,526,000. It was organized 23 years ago. The solvency of the company has not been questioned.

Archibald L. Bowen of Springfield had been named temporary receiver.

Judge Fitz Henry, his bond fixed at \$25,000.

over floral design, effectively  
touched with gold, may be had in  
the following pieces:Cake Plates Syrup and Plates  
Celery Dishes Sugar and Creams  
Spoon Trays Cups and Saucers  
(Fifth Floor.)

## MRS. REMUS PRESENTS BOOK OF DEPOSITIONS

Presented to Court in Ohio to Disprove Husband's Charges of Improprieties.

CINCINNATI, March 16.—A book of depositions containing 266 typewritten pages of testimony offered by 25 witnesses on behalf of Mrs. Imogene Remus, in preparation for the hearing of her divorce suit against George Remus, has been received by mail by the Clerk of the Hamilton County Courts. The document is by far the longest ever submitted in any divorce case in the history of the courts here. The depositions seek to disprove allegations of Remus that he was a prisoner in the Atlanta penitentiary.

Previously in depositions submitted by Remus there was one in the name of Vernon R. Chumbley, who described himself as formerly a secretary in the office of the warden of Atlanta penitentiary. He alleged he saw Mrs. Remus and F. L. Dodge, former Governor, improperly conducting themselves in the warden's office on Jan. 3, 1925.

Mrs. Remus' book of depositions contains testimony made by Warden John W. Snow in which he deposes that Chumbley never was a secretary, that his job was to fix and oil typewriters, that he had served a previous sentence for impersonating a Federal officer and that he also had served time in Leavenworth prison.

Another deposition submitted by Mrs. Remus is from New Haven, Conn., and according to her attorney, E. T. Dixon, it contradicts the testimony of Chumbley. The deponent, Blanche Kavanagh, assistant manager of the Taft Hotel at New Haven, says that Dodge registered there on Jan. 9, 1925, under the name of "F. L. Dady." It is claimed that Dodge used that alias because of official business in New Haven. The registration sheets containing the signature were attached. Also attached is a registration sheet from the Holland Hotel, Cleveland, O., bearing the true signature of Dodge. Attorney Dixon will offer comparisons of the handwriting, saying that Dodge was in New Haven on Jan. 9, 1925, he expects to show that the man could not have been in Atlanta on the previous day.

## WISCONSIN BOARD RESENTS U. S. CRITICISM OF SCHOOL

Part of Administration's Campaign to Discredit Every Activity of State, Officer Says.

MADISON, Wis., March 16.—Abstracts of the Federal Department of Labor criticizing the independence of children of the State public school at Sparta are prejudicial and unfair, John J. Hannan, president of the State Board of Control, declared today.

"The study covering the years 1913 to 1917, inclusive," he said, "was completed in 1925. And the giving out of the release at this time indicates that this action is part of the Federal administration's campaign to discredit every activity in the State of Wisconsin."

The report does not cover present conditions at all, Hannan asserted. "During the last two years much has been accomplished to create an intelligent, sympathetic interest on the part of the public as to the care dependent and neglected children should have. The physical health, education and social conditions at the Sparta school have been improved and further, a more careful investigation of foster homes is made than at any time in the history of the school."

## NEW APOSTOLIC DELEGATE ARRIVES IN MEXICO CITY

The Most Rev. George J. Caruana, Archbishop of Sebaste, is American Citizen.

MEXICO CITY, Mexico, March 16.—The Most Rev. George J. Caruana, promoted to be Archbishop of Sebaste and appointed apostolic delegate to the Antilles and Mexico, has arrived in Mexico City. Heretofore, apostolic delegates have been credited to Mexico exclusively, but Archbishop Caruana will have his permanent residence in Havana.

It is learned that he was appointed in December, 1925, before the present religious situation in Mexico developed, but the announcement was withheld. He was not required to present himself officially to the Mexican Government because he is not an Ambassador. Archbishop Caruana served as United States army chaplain in the Philippines, Panama and Porto Rico. He did parish work in Brooklyn in 1919, became secretary to Cardinal Dougherty of Philadelphia in 1921 and latterly was apostolic visitor to Guatemala. He is a citizen of the United States, although born on the Island of Malta.

Poison Again Thrown at Woman.

CARBONDALE, Ill., March 16.—A liquid, thought by police to be poison, was for the third time yesterday thrown into the face of Mrs. Grace Maze, 25 years old, while she was in her kitchen. She said her assailant was a youthful Negro. Physicians said the chemical did not have any serious effect on the woman's face. On previous occasions Mrs. Maze was on the street when liquid was dashed from a heavy curtained automobile.

THE beauty of the real Easter spirit is graciously expressed in Vanderwoort's selection of Cards, appropriately tinted; 5c to \$1.

## An Interesting Selling of Smart Coats for Larger Women

The Specialized Extra-Size Shop Features Slenderizing Tailored Models in Twills and Tweeds—Exceptional Values

**\$25.00**

AN unusually attractive opportunity for larger women to select a stylish, becoming new Coat for Easter and Spring at a much lower price than one usually pays for Coats of such fine quality material, such smart designing and such splendid tailoring.

The Sports Type, Fur-Trimmed and Strictly Tailored Models Included

Poireshen Coats in navy and black; also a few tan models are shown in smart straightline styles, with self collars or with Summer squirrel trimmed collars. Touches of flat braid or silk arrowheads are applied to give slenderizing effects. The Coats in tweed mixtures are equally attractive in their tailoring, some with inverted tucks at side. All lined throughout.

Sizes 42½ to 52½  
Extra-Size Shop—Third Floor.

### Easter Modes

THIS is too small a space in which to attempt any description as to the variety of the Easter modes in this establishment, but three words suffice to describe their uniformity!

THEY ARE C-O-R-R-E-C-T

Tan Green Blue Rose Wood Brown Copper

Juvenile Millinery Shop—Third Floor.

# Of the five biggest selling cigarettes in America, the **ONLY** one of its type!

**IT MAY WELL PROVE the "only" cigarette for your taste, too:**

*If you prefer something "out of the ordinary," instead of following the crowd (for this cigarette is distinctly different from the other big brands);*

*If as yet you have never tasted a "Virginia tobacco" cigarette (and without this agreeable experience no man's cigarette knowledge is complete);*

*If you once knew but have half-forgotten its mild sweetness, its zest and sparkle, and now would like to enjoy them anew.*

**In fact, the remarkable record of this big brand and the reasons behind it should interest all men who care enough for their smokes to think twice about them.**

**O**F THE five leading cigarettes in the United States today, four are "Turkish Blends"—that is, blends of Turkish and American tobaccos. Each is distinctive, of course—in proportioning of tobaccos and in taste—but each contains at least some measure of Turkish blended in with its Domestic tobaccos. The fifth, the one big exception, is a cigarette made solely from the golden leaf known as "Virginia tobacco."

Piedmont, of course—we hardly need to name it. Ranking today among the top four in sales, it has been steadily among the leaders for twenty-five consecutive years—more than the whole life of any other "big" brand.

## **The one big exception!**

Now, if it takes a corking good cigarette of any type, as it certainly does, to sell several billion a year, it surely must take a "regular humdinger" to win sales *against* the mighty current of popular taste.

And that is exactly what Piedmont has done. For in the last 10 or 15 years this country as a whole has turned noticeably toward the "Turkish Blend" type of cigarette—yet against four to one odds, Piedmont has actually held its place among the leaders, year after year.

Apparently in every new generation of smokers there are men, and a goodly

number of them, to whom something "out of the ordinary" has a real appeal. Herbert Spencer said: "the minority is *always* right;" and at any rate these smokers who have left the crowded road to take a path of their own choosing must have found it pleasant—for they do stick to Piedmonts without end.

## **What lies behind this unique record?**

But it is the different *taste* of Piedmonts that really counts.

It *must* be a matter of taste difference, for you will find Piedmont in the cigarette cases of prosperous New York

and Chicago brokers, and in the pockets of workmen, who from their limited tobacco money must extract the last ounce of pleasure; you will find it the favorite among old tobacco men in the South, trained to match one leaf against another; and you will find it ever popular, on either coast, with men who follow the sea. Probably no other cigarette is smoked by more diverse types of people.

And this is important—for it means that Piedmont is chosen, *not* because "everybody's doing it," but for *itself*—because it possesses a genuine tobacco difference which any smoker of any class can recognize.

## **A genuine difference—tobacco sweetness!**

The explanation of Piedmont's record, then, is simple. Virginia tobacco is different from other tobaccos, always has been, and always will be—and Piedmont is made of first-quality "bright" Virginia tobacco, and nothing else.

And if you like mildness and unmixed purity of flavor, if you like that indescribable thing which we call "natural tobacco sweetness," you'll like Virginia tobacco—and you'll get it at its best in Piedmont.

Liggett & Myers Tobacco Co.

*Probably no other cigarette is smoked by more diverse types of people.*

**No man can claim cigarette knowledge until he has smoked a "Virginia tobacco" cigarette.**

## **Just what IS this Virginia tobacco?**

It is a distinct type of tobacco grown in certain favored sections of four States—Virginia, North Carolina, South Carolina, and Georgia. The golden or "bright" Virginia used in Piedmont is a direct descendant of the first tobacco known to civilized man. Cultivated and improved for over three hundred years, its mild sweetness and purity of taste, not equalled by any other tobacco grown, have won world-wide prestige. It is truly the aristocrat of cigarette tobaccos.

## East St. Louis and Suburb In Fight Over Expansion

Ping Pong City's Movement to Become Incorporated Town Brings Effort to Block Plan.

Ping-Pong City wants to become a city. It desires to get rid of the despotic name bestowed upon it years ago by a nagging resident, and become a full-fledged St. Clair County town.

So it was that the hour of 8 o'clock last night found Ping-Pong's residents, lanterns in hand, hurrying to the district schoolhouse to discuss the action of the East St. Louis City Council, which yesterday laid plans to block Ping-Pong's striving for corporate life.

Plunged eastward over the low country south of State street, between the eastern city limits of East St. Louis and the bluffs, Ping-Pong has been left to shift for itself for many years—to find its way around as best it might in the darkness and mud that goes with unincorporated existence.

Community Pride Voiced.

Suddenly, just when its 423 residents were feeling the first beginnings of a community pride, and incorporation as a town was becoming a possibility, East St. Louis began to realize that if it is to expand it must be through the neglected Ping-Pong district.

To the north of the St. Clair County metropolis lies National City and northeast is Fairmount City. West of it is the Mississippi River. South of it is a deserted district unsuitable for city development. East of it lies Ping-Pong, unprotected by a corporate existence. It is through this district that East St. Louis has decided to drive its expansion.

But "Ping-Pong" has other ideas. It became apparent last night, when its residents pulled themselves up from the cramped benches in the schoolhouse to make earnest appeals for independence.

"We have nothing to gain by becoming a part of East St. Louis," Edward Spurn, former clerk of Centerville Township, declared, voicing sentiment expressed by most of the speakers. "If we are annexed we will have to pay for paving, sewers and other public improvements, and we may as well buy them for ourselves."

"Plan of Action Laid."

"Let East St. Louis crack the whip and vote us in," added H. C. Gentry of 406 North Eighty-second street, a brother of J. W. Gentry, chairman of the meeting. "Let it try to vote us in. We have laid a plan of action, and if we follow it we will be safe from annexation."

The plan includes the immediate raising of a petition signed by 25 qualified voters asking the County Court for a special incorporation election. Its backers expect it to be completed today. Meanwhile R. V. Gustin, corporation counsel of East St. Louis, is planning legal steps to head off incorporation of the district in conformity with the

### EMPLOYMENT ON INCREASE

Boot and Shoe Industry Among Those Increasing Forces.

WASHINGTON, March 16.—Industrial employment generally is on the upward trend, the Labor Department's employment service announces, basing its conclusion on the appreciable increase in the demands for all classes of skilled labor, skilled mechanics and farm help during the latter part of February.

Bad weather early in the month considerably curtailed building operations but the majority of the iron and steel mills were found operating on close to normal schedules, while the boot and shoe industry increased the number of workers and operating time. With the exception of New Jersey where a strike is now in effect at the Passaic Textile Mills, especially those of New England showed slight gains in their forces while automobile and accessory manufacturers increased both production and employment. Except in Pennsylvania and West Virginia, employment in the coal mining sections slightly declined.

### ESCAPES AUTO-TRAIN CRASH

Mayor Nichols of Oakland Suburb Says Signal Didn't Work.

Mayor Howard E. Nichols of Oakland, St. Louis County, escaped injury and possible death by leaping from his Peoria coupe a few moments before it was struck by a fast eastbound Missouri Pacific passenger train at the Sappington road in Oakland late yesterday. The machine was carried down the track about 200 feet and demolished.

Mayor Nichols said the electric signal at the crossing was not working when he drove across the tracks. A subsequent investigation by Constable Hazel and Keith of Bonhomme Township as said by them to have borne out the Mayor's statement.

### SYMPHONY PLAYS AT JOPLIN

By the Associated Press.

JOPLIN, Mo., March 16.—More than 5000 school children of Joplin and vicinity, pupils of the sixth grade and higher, were guests of the Joplin Globe and News-Herald at a concert yesterday afternoon by the St. Louis Symphony Orchestra. The orchestra last night gave a concert under auspices of the Joplin Civic Music Club.

### Dreams of Liquor, Finds It.

By the Associated Press.

WHITE OAKS, Ky., March 16.—G. S. McNeal said he dreamed several nights ago there was liquor in the Baptist Church here. Investigation Sunday disclosed 20 gallons of whiskey in the belfry, much to the amazement of the congregation. No one was arrested.

### Stockholm Gets Commerce Meeting

By the Associated Press.

PARIS, March 16.—The Council of the International Chamber of Commerce today announced its acceptance of an invitation from the Swedish National Committee to hold the next biennial congress in Stockholm. The session probably will open June 13, 1927.

**"Human Dairies" in Chicago.**  
By the Associated Press.  
CHICAGO, March 16.—"Human dairies" have been established by Dr. Herman N. Bundesen, city Health Commissioner, the first group of mothers to volunteer the sale of their excess milk having been examined. Milk taken from these mothers will go to babies whose mothers are unable to breast-feed them. "We will pay 10 cents an ounce for the milk," Dr. Bundesen said, "and sell it at from three to 30 cents. To babies in poor families, unable to pay, however, it will be furnished free of charge."

## RADIO CONTROL BILL PASSED BY HOUSE

Measure Creates Board of Five to Help Hoover Prevent Confusion in Air.

By the Associated Press.  
WASHINGTON, March 16.—The first big piece of radio control legislation to receive approval of either branch of Congress has been passed by the House and sent to the Senate. The vote yesterday was 218 to 124.

The bill passed is the White bill, designed to create a Federal radio commission of five to co-operate with Secretary Hoover in preventing confusion in the air.

The bill provides for issuance of station and operators' licenses by the Secretary of Commerce. Opposition was based on the contention that no machinery was provided that would insure against radio monopoly and that it gave the Secretary too much power.

Only one major amendment was added to the committee draft of the bill. This change, proposed by Representative Davis (Dem.) of Tennessee, struck out a provision to give the Commerce Department power to remit fines imposed for infraction of radio regulations.

The five members of the radio commission are to be appointed from five zones. Operators who are refused licenses will have the right to appeal to the District of Columbia Court of Appeals. It was stipulated that the President should have power to close any station during war "or other emergency."

**FIANCE HORSEWHIPS ACTRESS**  
Freed Under Suspended Sentence. He Leaves Court With Her.

Special to the Post-Dispatch.  
NEW YORK, March 16.—Miss Betty Scott Lloyd of the cast of "The Green Hat," now being filmed here, in Harlem Court, charged that her fiancé, William C. May, of Philadelphia, horse-whipped her. May, who pleaded guilty, was freed under a suspended sentence by Magistrate Goodman when Miss Lloyd made a plea in his behalf.

The arrest of May, who lives at Hotel McAlpin, and who is a son of John May, a Philadelphia business man, followed a telephone call to a police station by a neighbor of Miss Lloyd. Miss Lloyd explained, the neighbor said, she and May had quarreled over a police dog. When sentence was suspended the pair departed together.

**Store Robbed of \$1000 in Shoes.**  
Two hundred pairs of shoes were stolen by burglars who replaced empty boxes on the shelves in the store of Eugene Eichhorn, 4145 Manchester avenue, Sunday night. Eichhorn spent yesterday opening boxes to inventory his loss. He estimated the value of the stolen shoes at \$1000.

## EDITORIALS ABOUT RELIGIOUS ISSUE IN TRIAL NOT CONTEMPT

Wisconsin Man Facing Murder Charges Denied Citation Against a Newspaper.

By the Associated Press.  
MADISON, Wis., March 16.—Editorials printed by the Capitol Times of this city, charging that religious prejudices were being aroused in the interest of Edolph Jessner, a Jew, who is charged with murder, are not grounds for contempt of court action, Circuit Judge Hoppmann has announced. Attorneys for Jessner, who is to go on trial on a first-degree murder charge as a result of the killing of Patrolman Palmer Thompson here, demanded contempt of court proceedings against the newspapers for printing two editorials. They contended that justice had been obstructed. The court held that his investigation

did not disclose that the action to which my attention was directed will interfere with fair and impartial trial.

With Silver Thread

THESE new purchases are a thing of beauty and a joy forever! They have all the eclat of a French Room presentation. For instance you will see superbly tailored Coats of imported tweeds, rich twills finely fashioned, for those who favor sports apparel there is a fine selection of plaided and striped novelty fabrics. Fur edgings and elaborate embroidery are the outstanding decorative note that Paris has proclaimed for Spring Coats. The thing to bear especially in mind is that these Coats will immediately impress you with their unusual detail.

SLAYER IS DRAGGED  
FROM BED AND KILLED

Band Invades Home of Texan  
Who Ended Life of Neighbor in Fight.

By the Associated Press.  
CENTER POINT, Tex., March 16.—Dragged from a bed where he lay wounded with a baby at his side, Frank Johnson, charged with the murder of a neighbor farmer, was killed by a band of men here last night.

Johnson killed Homer Gibson in a fight last Friday night which is believed to have resulted from a dispute over what school the Johnson children were entitled to attend.

In the fight with Gibson, Johnson was so badly wounded physicians had him removed to his home under surveillance. He was in bed with a sleeping baby when his assailants are said to have burst into the room. Realizing what they had done, he begged not to be killed there in view of the baby. The men dragged him out of bed and as he fell to the floor shot him to death. The shooting occurred shortly after Deputy Sheriff had departed at Johnson's request.

Center Point is near the intersection of three counties. This has caused a complication in school districts. The Deputy Sheriffs and friends of Johnson had been in his room and about the house a short time before the killing, but he had told them he could not sleep with them present and asked that they leave him alone. A short time after they departed, the band of men who killed him appeared.

According to reports, no one recognized the slayers and no one would advance any opinion as to who they were. It is believed they were unmasked.

Johnson's home is in an isolated section across the line from this county. He had insisted he had a right to send his children to school here though he lived in another county.

The fight between Johnson and Gibson occurred at a schoolhouse. Johnson's throat was cut and he received other wounds in the fight.

WED AND CAST OFF BY PROXY  
IN JAPAN, WIFE SUES IN U. S.

Mrs. Ino Yamasaki Challenges Native Divorce and Seeks American Decree and Alimony.

By the Associated Press.  
SAN FRANCISCO, March 16.—Married by proxy in Japan and divorced the same way, Mrs. Ino Yamasaki, San Francisco, Japanese, is suing Tokichi Yamasaki, Boston merchant, for an American divorce.

The wife, in her complaint, says that she married Yamasaki in Osaka six years ago, her husband's brother acting as bridegroom in the proxy ceremony. After she came to America, her husband ordered her back to Japan and failed to provide for her, she claims.

Yamasaki sent to Superior Judge Daniel C. Deasy copies of documents in Japanese to show he divorced his wife just as he had married her by proxy. Counsel for Mrs. Yamasaki said the Japanese proxy divorce will be attacked as not binding here, and that she is entitled to a decree and alimony.

90 DAYS IN WORKHOUSE FOR  
DRIVING WHILE INTOXICATED

Tobacco Worker Also Fined \$100 on Testimony of Director of Public Safety Board.

Frank Skiles, 21 years old, a tobacco worker, of 2810 West avenue, was fined \$100 and sentenced to 90 days in the workhouse for driving while intoxicated, by Police Judge Beck today, on testimony of Director of Public Safety Board. Brod said as follows: Skiles' automobile for more than 1 block on Feb. 27, causing his arrest near 1400 Vermont avenue. Skiles pursued a zigzag course and narrowly missed striking several other machines, said Brod.

Skiles pleaded not guilty, offered no testimony, and appealed.

## ANTI-AUTO INJURY DEVICE

Correspondence of the Post-Dispatch.

VIENNA, March 15.—Herr Jacob Singer has just given a demonstration to the press of a new contrivance to prevent motor cars from running down pedestrians. It consists of a network of India rubber ropes, which is as wide as the car and fixed in front of it. To judge from the experiments shown, the pedestrian is caught up without being injured. A wooden doll with movable limbs was used, weighted with iron to some 125 pounds. It was caught up by the net, in which it seemed to rest safely.

The police forbade actual experiment being made with a living person, but a workman subsequently placed himself at the disposal of a film operator, and was caught up by the net in the same way as the wooden doll, without being hurt. He placed himself a second and third time in the way of the car, reading his newspaper, with the same reassuring result. It took Herr Singer three years and a half to perfect his invention.

## Youth Overcome by Fumes Is Taken to City Hospital.

Albert Nies, 21 years old, was overcome by fumes from a gas heater in his room at 2644 Lafayette avenue last night and taken to City Hospital this morning. He said the heater was lighted when he fell asleep. He will recover.

## Bel Canto Club Gives Recital.

The Bel Canto Club announces a Lenten recital at St. George's Chapel next Thursday at 8:15 p. m., at which Richard R. Klein, tenor; Norman B. Erd, baritone, and Miss Louise Evers, 'cellist, will be soloists. The club will sing two group songs and Shelly's "Hark, Hark, My Soul," with O. Wade Talbert conducting.

## Gain 5 Pounds In 30 Days or Pay No Money

That's the iron-clad Guarantee behind Dr. Gross' Cod Liver Oil Tablets (Double-Strength)

It's no trick at all, as hundreds of people have learned in the past few months, to put on good solid flesh with Dr. Gross' Cod Liver Oil Tablets.

Sugar-coated, they're as easy to take as candy, and they certainly do the business, building you up and giving you new pep and energy. They're splendid for weak, puny children, too—giving them appetite and vigor.

If you're tired of being scrawny and run-down, go to your drugist and get a bottle. So sure are we of results, we make this positive guarantee: Take three bottles of Dr. Gross' Tablets according to directions and at the end of 30 days if you haven't put on at least 5 pounds, if you don't feel like a new person, your money will be cheerfully refunded.

"You've nothing to lose and everything to gain, so start the treatment today."

Accept no substitutes—get the genuine.

## Won't Play With Piles!

American women are attracted to all active sports. How attractive they are in pursuit of honors in tennis, swimming, horsemanship! But none would try these with so distressing a handicap as piles.

Fortunately for her who loves to be outdoors, and live hard, the whole pile problem is disposed of in a moment! One, soothing suppository applied in privacy—the next minute you've forgotten your pain, or even inconvenience. Yes, Pyramid suppositories assuage bleeding, badly protruding piles, too!

Sixty cents the box, the whole world. For proof, a free box plainly wrapped, will be sent those who write Pyramid Drug Co., 1400 Grand Bldg., Marshall, Mich.

## NEW LAMBERT CO. CHARTER IS FILED

Financial Reorganization Effected in Delaware—Lamberts Will Retain Control.

Special to the Post-Dispatch

DOVER, Del., March 16.—A charter was filed here today for the Lambert Company of St. Louis, authorizing the corporation to issue 1,000,000 shares of stock without par value, of which 1,000,000 shares will be common and 100,000 shares will be preferred stock.

This action definitely effects the financial reorganization of the Lambert family since the founding of the concern in 1884.

Under the charter filed today the company is authorized to acquire obligations and securities of any corporation or domestic or foreign government, and to acquire, lease, sell, assign and grant licenses in respect of pledge or otherwise dispose of letters patent of the United States or of any foreign country.

Lamberts to Retain Control. Members of the Lambert family will remain in control of the corporation under the reorganization.

It is said about 200,000 shares of the new stock will be offered to the public.

The issue of stock owned solely by the Lambert family prior to the reorganization was \$9,000,000. A petition to the Probate Court to sell part of the holdings of two heirs disclosed a value of \$275 a share, on the basis of which the Lambert holdings would be worth \$18,500,000.

### HEARING OF NEGRO ADMITTING ATTACK ON WOMAN DELAYED

Webster Groves Authorities to Wait Until Mrs. Mabel Faenger Can Testify.

Prosecuting Attorney Mueller of St. Louis County announced today that the preliminary hearing of Robert Johnson, Negro convict, who has confessed a criminal attack on Mrs. Mabel Faenger, in her home near Webster Groves last Tuesday, will not be held until Mrs. Faenger has recovered sufficiently to testify against him.

Mrs. Faenger is at Lutheran Hospital recovering from a fracture of the skull which Johnson, in a confession, admitted he inflicted with a railroad coupling pin before attacking her after she had prepared him a breakfast. It is believed she will be well enough for a trip to Justice Gould's court at Webster early next week.

Meanwhile, the whereabouts of the prisoner is being kept secret as a safety measure. He was removed from Webster after his confession Sunday and will not be returned there until the hour of the preliminary hearing. Mrs. Faenger, who identified his photograph, has not yet viewed the Negro.

SENATOR WILLIAMS TO DISCUSS CAMPAIGN WITH FRIENDS HERE

He Will Arrive Home Tomorrow Night for Conference Regarding the Primary.

United States Senator Williams will arrive in St. Louis tomorrow evening for consultation with Missouri political friends regarding the primary campaign, in which he will be a candidate to succeed himself.

The Senator has no serious opposition to the present union, only one candidate, William O. Atkinson of Butler, having announced against him. However, efforts are being made by Republicans who dislike him to induce another candidate to file, preferably Walter S. Dicker of Kansas City.

Senator Williams is expected to remain in Missouri until early next week.

SECRETARY OF WAR DAVIS HERE TO ADDRESS VETERANS

Secretary of War Davis is in St. Louis, his home, today on personal business and to attend the reunion tomorrow at the First Regiment Army of the 128th Infantry, with which he went to war as a Captain, coming out a Lieutenant Colonel and assigned elsewhere.

He arrived yesterday and will depart tomorrow night. He is expected to speak at the meeting at 2:30 p. m. tomorrow, when veterans of the 128th, A. E. F., are to be permanently organized.

ST. LOUIS-JACKSONVILLE, ILL., BUS SERVICE PERMIT SOUGHT

The Alton Transportation Co., a subsidiary of the Chicago & Alton Railroad, which was incorporated March 1 and has headquarters in Chicago, notified the City Council of East St. Louis yesterday that it had filed application with the Illinois Commerce Commission to operate a bus line from St. Louis to Jacksonville, Ill., along State Highway No. 1 through East St. Louis, the Tri-Cities, Alton, Jerseyville, Carrolton, Roodhouse and intermediate points.

One-way fare from St. Louis to Jacksonville will be \$3.50. The East St. Louis & Suburban Railway Co. of East St. Louis has also filed application for a bus line on the same route as far as Alton.

## 451ST INFANTRY RESERVE OFFICERS TO REPORT JULY 11

Two Weeks' Training to Be Had at Fort Leavenworth, Kan.; Orders Received.

Orders directing that the 115 officers of the 451st Infantry, Re-

serve Regiment, 93 of whom live in St. Louis and St. Louis County, report for two weeks' training at Fort Leavenworth, Kan., beginning July 11, were received here today. The personnel of the encampment also will include officers of the 46th Reserve Regiment, with

headquarters at Little Rock, Ark. The first Reserve Officers' Training Camp at Jefferson Barracks this year will be June 13 to 27 for headquarters officers of the Seventh Army Corps. Col. A. J. Linxwiler of Jefferson City will be in command.

A feature of the encampment of

officers of the 38th Field Artillery, Reserve, will be a 90-mile hike from Arcadia, Mo., to Jefferson Barracks to terminate the organization's training period, Aug. 1 to 11. Battery C, Fourteenth Field Artillery from Jefferson Barracks will accompany the reserve officers to Arcadia.

# SCREAMS OF WOMAN ROUT TWO HOLDUP MEN IN STORE

Proprietor of Benton Street Establishment Flies to Street When Pistol Is Displayed.

A young man walked into the dry goods store of Miss Helen Carson, 1400 Benton street, last night, and timidly asked for "some stuff to

make baby clothes." While Miss Carson cut and wrapped 10 yards of material, another man walked in and stared into the show cases and studied the neckties.

"I think I'll take one of those ties," said the second man, pointing to a rack suspended over the counter. As Miss Carson reached to draw it down, he drew a pistol

and pressed it to her side. Miss Carson screamed and fled through the Fourteenth street door shouting for help. The two men fled to Benton street, abandoning the package of cloth, and escaping in an automobile in which a third man waited. Miss Carson told police she had money concealed in various parts of the store.

# SAYS UNIONS WILL END JURISDICTIONAL STRIFE

W. J. McSorley, Chief of Parley Here, Predicts Peace in Building Trades.

The return of the six more important building trades local unions here to the St. Louis Building Trades Council is the expected result of a series of conferences by international officers of building crafts bodies at Hotel Jefferson this week.

The crafts represented at the conference are the painters, bricklayers, plumbers and steamfitters, lathers and plasterers. While no official recommendation that the locals of these crafts return to the council has been made, belief that such action will be taken was expressed today by W. J. McSorley, president of the Building Trades Department of the American Federation of Labor, who is presiding at the meetings.

The principal purpose of the return of the locals to the Council is to harmonize building labor and avert jurisdictional disputes, according to McSorley. In order to effect this, the carpenters' local union, an organization frequently involved in jurisdictional rows, has been invited to rejoin the council with the other crafts named.

**Policy for Arbitration.**  
"The Building Trades Department has never encouraged strikes as a means of settling jurisdictional differences," McSorley said. "These matters can be more easily settled through arbitration where the crafts are joined under one council and the principal purpose of our visit to St. Louis is to provide a medium for the settlement of such matters in the future and harmonize building labor here generally."  
The conferences will continue until Thursday.

The locals expected to return to the Council withdrew from the body after the St. Louis organization was suspended by the Building Trades Department of the American Federation of Labor in 1923 for failure to unseat delegates from the Iron Workers' Union here, at that time under suspension by the Iron Workers' International. The charter was restored by the Building Trades Department in September, 1924, but the Council had dwindled from 15,000 members to about 5,000, more than half of these belonging to the hod-carriers and building laborers' union. Efforts to interest the more important crafts to return have been unavailing up to now and the invitation to the international officers to meet here was by way of a last resort.

**Building Work Retarded.**  
A jurisdictional dispute between the carpenters' and sheet metal workers' unions here in 1923 resulted in contractors erecting St. Mary's Hospital, the "Shriners" Hospital for Crippled Children, and new structures at Bellefontaine Farm and Koch Hospital seeking a restraining order to prevent interference with the work.

Construction on the projects named was held up due to the dispute and was only completed after the legal action was taken. Other large projects here have been threatened with suspension because of jurisdictional differences and both contractors and union officials are hopeful that the return of all local building crafts to the council will avert similar disputes in the future.

# ACTION IN ITALY AGAINST TRESCA, RADICAL EXPATRIATE

**ROME, March 16.**—Proceedings to deprive Carlo Tresca, Italian radical, have been started here by a special committee which is studying the application of the law by which Italian expatriates may be deprived of their citizenship for criticism of the government at Rome. Tresca is now living in New York, where he is editor of "Il Martello," or "The Hammer."

# King Pardons Mussolini's Critic.

Copyright, 1926, by the Press and Publisher Publishing Co. (New York World and Post-Dispatch.)

ROME, March 16.—William Ellison, a Bachelor of Science from London University, convicted in Florence of being drunk and disorderly, failing to register with the police as an alien and speaking

insultingly of Premier Mussolini, has been pardoned by the King, conducted to the frontier and turned over to the British Consul to be sent home. Ellison was sentenced originally to eight months' imprisonment and fined 1000 lire (\$40), but on appeal this was reduced to five months in jail and 250 lire fine.

and the hair restored  
to full health!

SPECIALISTS now say that dandruff is an infection and that to overcome it just two things need be done:

FIRST, the dandruff germs must be destroyed. The ideal safe disinfectant for the hair in Ed. Pinaud's Eau de Quinine is more effective in destroying dandruff germs than any other known preparation.

SECOND, the scalp must be stimulated to more vigorous health. Special ingredients in Eau de Quinine stimulate the inactive glands and awaken the sleeping hair roots.

Begin this treatment at once and watch your hair take on a new, smooth, shining beauty. All druggists and department stores have Ed. Pinaud's Eau de Quinine. Parfumerie Ed. Pinaud, 18 Place Vendôme, Paris—sole distributors, Pinaud Incorporated, 90 Fifth Avenue, New York.

SAN PEDRO, Cal., March 16.—Frank A. Vanderlip, New York financier, who recently became a resident of the Palos Verdes district here, has been elected president of the San Pedro Chamber of Commerce. He accepted the position.

## YOUTH, 17, GETS YEAR IN AUTO FATALITY CASE

Also Fined \$500 by Jury for Running Down an 11-Year-Old Girl.

A jury in Juvenile Court yesterday convicted John Webbe, 17 years old, of manslaughter in a traffic accident case and fixed his punishment at a year in jail and a fine of \$500.

An automobile driven by Webbe struck and killed 11-year-old Mary Beckley, 124 Mississippi avenue, at Fourteenth street and Chouteau avenue on Aug. 2, 1925. The penalty is the most severe in an auto death case in the past two years. State's witnesses testified Webbe was driving between 35 and 45 miles an hour. The defense contended he was driving at a moderate rate of speed and that the child ran into the path of his machine before he could turn out or stop.

The jury was out about an hour. John New Jr., attorney for Webbe, announced he would ask Circuit Judge Hartman, presiding, for a new trial. He had previously made a special request for a jury. Ordinarily, Juvenile Court cases are tried without jury.

**Negro Who Left Scene of Accident Gets 90-Day Sentence.**

Sherman Murphy, 29 years old, a Negro, of 3239 Pine boulevard, was sentenced to 90 days in the workhouse yesterday by Circuit Judge Frey on his plea of guilty of feloniously leaving the scene of an injury to a person.

An automobile driven by Murphy struck and injured Miss Beasie Ruckie, 24, of 2215 Market street, in front of Union Station last Aug. 4. Murphy, fleeing from the scene, collided with a lamp post at 1724 Chouteau avenue. He was turned over to a policeman by a citizen who had pursued him from the depot.

**GOETHE'S IDEAS ON SERVANT QUESTION IN NEW BOOK**  
German Poet Wrote of Woman That She Could Cook, but Listened at Keyholes.

Continuation of the Post-Dispatch. BERLIN, March 16.—Something quite new in the annals of memoir writing may very well become the fashion now that a delightfully got-up little book, "Intermezzi Scandolosi," from Goethe's life, has been added to the many thousands of works Germany has produced on her great man.

These "Intermezzi Scandolosi" are merely a continuation to the hitherto untouchable problem of "Goethe and the Servant Question." Goethe, no Bohemian save in matters of the heart, loved a well-ordered household and suffered much in his efforts to obtain it. One cannot help criticizing Goethe's wisdom as a master. Cooks were his special trouble, and he complains bitterly of one who, upon leaving, tore the "references" he gave her into shreds under his very nose, and scattered them about the apartment in which he was writing. This person, Charlotte by name, deserves a place in that gallery of women since made famous in Goethe's biographies. She appears to have been able to cook, and he bore with her for two years. But the character he gave her on leaving, which she treated with such contempt, appears to have been duplicated. He states in it that she ran indeed cool, and is at times polite, even to flattery, but the consequence of her behavior is such that she only cooks when she feels like it. "She stirs up strife among the other servants and makes the life of those a burden who do not sit with her. She also listens at keyholes."

**GOV. SMALL SUIT REINSTATED**

Special to the Post-Dispatch.

SPRINGFIELD, Ill., March 16.—The State interest suits against Gov. Small were reinstated in the Circuit Court this morning and set for hearing on May 12 before Master in Chancery Charles Briggs. The order of reinstatement was made on motion of Attorney-General Carstensen. Gov. Small was in court with his attorneys, Stansbury, Radley and Schroeder.

The hearing before the Master will determine the amount due the State. That the examination will require months was indicated when attorneys said that it would be necessary as the first step in the hearing to examine the accounts of 1880 banks. The Supreme Court recently held that the Governor must account for money paid as interest on State deposits when Small was Treasurer. The State alleges he withheld approximately \$1,000,000.

**Soviet Plan to Organize Negroes.**

Special Cable to the Post-Dispatch and the Chicago Daily News, Overnight, 1926.

WASHINGTON, March 16.—The Red International labor union organization proposes to pay particular attention to organizing Negroes in the United States and South America. The following program was outlined by Solomon L. Lozovsky, general secretary of the Proletarian, the Soviet labor union organization. "In the United States there are 11 unions with 428,000 members which refuse membership to Negroes. It is necessary to fight the prejudices of white workers against Negro workers. Negroes must either be admitted to the white unions or we will organize separate Negro trade unions."

## RIVER ADVOCACY AND CONTRADICTIONS IN ROW OVER

Private Interest to Take Work Out of Army Engineer

## TWO BILLS OF TO CHANGE I

Representative M. St. Louis Critic for Profit.

Post-Dispatch 20-23 V

WASHINGTON, M

Centering their attacks on the Army Engineer, the country have started a movement out of business. The first skirmish was when Gen. R. J. of Washington, chief of the Associated Contractors of America, before Representative L. St. Louis and his subcommittee of the House Judiciary Committee, dictated the present policy as "uneconomical and contrary to the national policy of the government."

The second clash was when Major-General Taylor, chief of the Representative Cleveland of St. Louis, the waterways advocate in the stand for Gen. Marshall's facts at both the waterways and the waterways group is in the cause it feels that millions in appropriations are the contractors are exposed because they have extensive lobby and in that the rivers and improvement is only a poor Government work they must.

Two Bills in Congress. Two identical bills, one introduced in the House before Congress, Sen. (Rep.) of Utah, has introduced in the Senate, Rep. Guy E. Campbell (Rep., Ill.), introduced in the bill upon which the Committee is holding a hearing. The Campbell bill, which designated the "River and Harbor Improvement Act," its improvements with proposals that Federal Civil agencies shall prepare plans and specifications for construction projects estimated more than \$5000, together with a public fund, pending on such a project, the bill shall be limited to such bills be reauthorized shall be awarded the day labor system or they come from approved directly for the or from other sources made available for public use, and that not more than 10 percent of any appropriation shall be on construction projects by public forces.

The title to the bill is "to regulate, control and the disbursement of funds." This, according to the bill, does not do, since under the present law, the Government would not get a return for every dollar they say the present project.

Newton Backs Present Measure.

He explained to the Post that the Government has started lobbying measures. Representative Newton to the bill was to the attention of the Chamber of Commerce, Merchants and Manufacturers Association, and the absolutely opposed to the bill because it would compel the Government to seek private for all of its work a necessary the scrapping of the Government.

PART TWO.

## RIVER ADVOCATES AND CONTRACTORS IN ROW OVER JOBS

Private Interests Lobbying  
to Take Construction  
Work Out of Hands of  
Army Engineers.

### TWO BILLS OFFERED TO CHANGE PRACTICE

Representative Newton of  
St. Louis Criticizes Efforts  
to Gouge Taxpayers  
for Profit.

Post-Dispatch Bureau,  
20-23 Wyatt Bldg.  
WASHINGTON, March 16.

Continuing their attacks on the rivers and harbors improvement work of the Army Engineer Corps, the associated construction interests of the country have started a movement they say will "take the Government out of business" only to be met with a strong defense by the Army Engineer Corps.

The first skirmish occurred last week when Gen. H. C. Marshall Jr. of Washington, general manager of the Associated General Contractors of America, testifying before Representative L. C. Dyer of St. Louis and his subcommittee of the House Judiciary Committee, indicted the present improvement policy as "uneconomical, impractical and contrary to the established national policy that a democratic government should encourage rather than compete with private initiative."

The second clash will come Friday when Major-General Marshall, chief of engineers, and Representative Cleveland A. Newton of St. Louis, the outstanding waterways advocate in the House, will take the stand to challenge Gen. Marshall's facts and theories. Both the waterways and contractors are expected to be well represented at this hearing. The waterways group is interested because it feels that millions of dollars in appropriations are at stake; the contractors are expected to be there because they have been lobbying and have stated that the rivers and harbors improvement is only a portion of the Government work they wish to construct.

Two bills in Congress. Two identical bills, sponsored by the construction contractors, are before Congress. Senator Smoot (Rep.) of Utah, has introduced a bill in the Senate. Representative Guy E. Campbell (Rep.) of Pennsylvania, introduced in the House the bill upon which the Judiciary Committee is holding hearings.

The Campbell bill, which has been designated the "Labor" bill because the Government contracts its improvement with day labor, proposes that Federal Governmental agencies shall prepare complete plans and specifications on construction projects estimated to cost more than \$5000, together with a detailed estimate of the cost; that if any public funds are expended on such a project, competitive bids shall be invited and that if such bids be reasonable, the contract shall be awarded to the lowest bidder capable of doing the work; that all expenditures made under the day labor system, whether they come from appropriations made directly for the specific job or from other funds, shall be made available for public inspection, and that not more than 10 per cent of any appropriation or contributed fund shall be expended on construction projects performed by public forces.

The title to the bill states that it is "to regulate, control and safeguard the disbursement of Federal funds." This, according to the waterways advocates, is what it does not do, since under it the Government would not get a dollar return for every dollar expended, as they say the present procedure insures.

Newton backs present plan. He explained to the Post-Dispatch that he started lobbying for the measure. Representative Newton's opposition to the bill was brought to the attention of the St. Louis Chamber of Commerce and the Merchants and Manufacturers' Association. Newton replied to these groups by telegraph that he was absolutely opposed to the measure because it would compel the Government to seek private contracts for all of its work and would necessitate the scrapping of \$55,000,000 worth of equipment the Government owns. He explained that the Government under its

## Leave to Print

Kick in San Diego Cocktails  
Felt in Washington.  
Upshaw Moved to Prayer  
Loudest Voice in Congress  
Arkansas Hookworms vs.  
Alabama's.

Post-Dispatch Bureau,  
20-23 Wyatt Bldg.  
WASHINGTON, March 16.

THE old proverb which runs, "To eat a man's salt and then do him an injury is the act of a scoundrel," is being freely quoted in discussions of the recent exploit of Brig. Gen. Smedley Butler at San Diego. After being entertained by a brother officer at a dinner at which cocktails were served, Gen. Butler had his host placed under arrest on charges of intoxication and unbecoming conduct.

Few episodes have caused more talk in the capital. For one thing, the "army set" is one of the largest and most potent groups in Washington society. For another, everybody knows that liquor is served on the tables of dozens of army officers every night. It is not difficult to picture the distrust, suspicion and heart-burning that would ensue if the gallant General's feat should set a precedent. "Army politics" is a fearsome thing already.

Of course, the open violation of the Volstead act by public servants is by no means confined to army officers. It is quite as general in the civil branches. THE only defense of Gen. Butler's action thus far uttered in public was by Representative W. D. Upshaw of Georgia, the House's most professional "dry." He pronounced the General's act that of a gentleman, an officer and a patriot, and urged that it be taken as an example by the rest of the army. If that advice is accepted the United States army is in for more bitter fighting in the next twelve months than it has seen since the campaign in the wilderness.

TAKING offense at a story in the Boston Herald, Upshaw five days ago called Robert Choate, correspondent of that paper, to the House cloak rooms, and demanded a retraction. When Choate declined, Upshaw struck him in the face. Upshaw, a former evangelist, is a crumbly and excitable man. Without removing his hands from his pockets, Choate said: "I think that is a sufficient answer to any criticism that could be made of anything I have printed about you," and walked away.

UPSHAW, who had struck a posture of defense, started for a moment, and then called: "Wait a minute, young man. I owe you an apology. That's the first time in my life I ever did anything like that."

"I don't care to prolong the discussion," said Choate, continuing on his way. Upshaw shook his head sadly at the retreating back of the stalwart reporter. "I'll pray for the young man," he said.

THE loudest voice in either House of Congress, not even excluding the reading clerk's, is that of Senator Willis of Ohio. It has been suggested that it was unnecessary for Willis to have his speech placed in the Congressional Record for home consumption; that his Ohio constituents could hear them if they would listen.

A few days ago he was reading a long dry editorial on the floor of the Senate from an Ohio paper, and he was in good voice. The fastidious Jim Wadsworth of New York sat immediately under Willis' booming fire. After the reading had progressed for several minutes, Wadsworth suggested that Willis leave the rest of the laborious task to the clerk.

"The Senator from Ohio should be obliged to the Senator from New York," suggested someone on the Democratic side.

"I was unable to hear the Senator from Ohio," Wadsworth softly explained.

SENATOR CARAWAY does not concur in the charge that Arkansas is the center of the hookworm belt.

"I once spent a week in Alabama," he said the other day, "and the only human being I saw in motion was a man falling off of the roof of the cow shed."

## RESTORES EX-SENATOR'S RIGHTS

Governor of Virginia Issues Proclamation After Impeachment.

RICHMOND, Va., March 16.—The political disabilities of Alfred C. Smith of Norfolk, whose expulsion from the State Senate last week was the first impeachment in the history of Virginia, have been removed in a proclamation issued by Gov. Byrd. Smith announced he probably would enter the race for Congress this year against Representative Deal, and that he intended to take the examination of the State Board of Law Examiners in June. His impeachment followed revocation of his license to practice law and the finding of a Senate investigating committee that he had twice been convicted of forgery. Restoration of his political rights was requested in a petition signed by 31 State Senators and 88 members of the House of Delegates.

## U. S. JOINS POWERS IN ULTIMATUM TO CHINESE FACTIONS

Note Demands Lifting of  
Blockade of Tientsin and  
Removal of Impediments  
to Harbor Traffic.

### FOUR NATIONS HAVE WARSHIPS ON SCENE

Ultimatum Signed by All  
Signatories of Protocol  
of 1901, Which Called  
for Dismantling of Forts.

By the Associated Press.  
PEKIN, March 16.—The United States and other powers today delivered an ultimatum to Chinese factions demanding that blockade of the port of Tientsin be ended and all impediments to harbor and river traffic be removed by Thursday noon.

The ultimatum, signed by signatories of the protocol of 1901, was handed to the commanders of the forts at Taku and Chinese vessels outside of Tientsin. The United States, Great Britain, Japan and Italy have a dozen or more naval craft in these waters. The protocol of 1901 mandated stipulations concerning the disarmament of forts at the mouth of the Pei River, on which Tientsin is located, and also guaranteed an opening to the sea. The blockade has been preventing access to Peking from the sea and recently resulted in Chinese troops firing upon two Japanese destroyers.

Note to Foreign Office. The action of the powers was made known to the Chinese foreign office by the following memorandum forwarded by the dean of the diplomatic corps: "In order to maintain the general treaty right to international commerce, and particularly the right to free access from the capital to the sea, provided in the protocol of 1901, the powers concerned demand: (1) Hostilities be ceased from the Taku Bar to Tientsin; (2) The mines and other obstructions must be removed; (3) Navigation signals must be restored and not further molested; (4) Combatant vessels must remain outside the bar and refrain from interference with foreign ships; (5) Searches of foreign vessels, except by customs authorities, must be discontinued; (6) If satisfactory assurances on these points are not received by noon of Thursday, March 16, the naval authorities of the foreign powers will proceed to take such measures as they find necessary for the purpose of removing and suppressing obstructions to free and safe navigation of the channel."

American Destroyers Sailed. Tokio advices today were that the Japanese cruiser Hiarado had been ordered to the mouth of the Taku River from Port Arthur. A Manila dispatch says eight of the departure of four American destroyers for Swatow, China.

Russian Ship With Munitions Seized By Chinese Leader. TIENTSIN, March 16.—The Russian ship, Oleg, with a large cargo of munitions, was seized today at Taku by warships of Marshal Chang Tso-Lin, Manchurian warlord. The warships have been blockading the port for several days to prevent supplies reaching the Kuomintang (national) army, supporting the Peking Government.

## CROP SURPLUS MEASURE LIKELY TO CAUSE TARIFF ROW

Bill Submitted to House Committee  
By Farm Relief Group Is  
Opposed by Protectionists.

WASHINGTON, March 16.—The question of the tariff stood out today as one of the fighting points which may confront the House Agriculture Committee in its efforts to agree upon a measure to settle the surplus crop problem.

A draft of proposed legislation prepared by a Middle Western farm relief delegation which has been sitting with the committee contains no direct mention of the tariff.

Chairman Haugen had advised the delegation to write into the bill provisions empowering the President to increase without limit the tariff on any agricultural commodity. He also suggested that the price which the Government would undertake to provide for surpluses be fixed at the world price of a commodity plus the tariff and other costs of importing it.

The only provision relating to importations is one for an embargo on corn, which the bill would put into effect for a year after its enactment.

In its present form the measure would authorize appropriation of \$250,000,000 to start a revolving fund to care for farm surplus. This sum would be paid back by equalization fees collected on farm commodities and handled by the Federal board.

## Rossi Says Mussolini by Amnesty Trick Pardoned Himself for Matteotti Murder

Former Colleague Avers  
Duce Ordered Party  
Treasurer to Finance Secret  
Terrorist Organization and Must Accept  
Blame for Its Acts.

THE second of the series of articles by Gen. Cesare Rossi, for years the personal friend and political associate of Mussolini, is printed today. In the first article, published in the Post-Dispatch yesterday, Gen. Rossi discussed the present dictator of Italy charging him with inspiring the reign of terror and scenes of violence two years ago which culminated with the slaying of the Socialist leader Matteotti.

By CESARE ROSSI.

PARIS, March 16. ONE cannot understand the Matteotti affair in its true light without knowledge of the political turmoil which followed the march on Rome and particularly after the general elections of April 6, 1924.

Liberalism had fallen in Italy; respect for government and parliament had sunk to a low ebb under the Fascist regime, and a general strike had led to scenes of revolution. In such circumstances the right of the Fascists to step in and save the state from falling to pieces was unquestionable. Nitti and Amendola with their little opposition faction can be held culpable for the friction which followed the Fascist ascent to power. They foolishly miscalculated the country's response to the elections, forgetting that the new election law was passed by a chamber which contained only 35 Fascists and after being submitted to rigorous scrutiny by a special committee presided over by Giolitti and containing such former opponents as Orlando, Salandra, Bonomi and distinguished deputies like Turati and Chiesi.

### Strictly Constitutional.

Therefore this law was strictly constitutional and resistance therefore to it was not mine solely. It leaps out in every document connected with the trial.

After the publication of my memorial by Il Mondo of Rome, another person, on Jan. 2, 1925, confirmed what I said about Mussolini's responsibility for Fascist violence. That other person is named Benito Mussolini.

When a Prime Minister proclaims himself the head of an association for violent transgression of the law, do not all trials arising from the deeds of such an association, committed at the height of the Fascist regime, constitute so many insults to justice?

### "Mastery Absurdity."

Isn't it a mastery absurdity? Marinelli restored to membership in the grand council, where he sits side by side with Rocco, the Minister of Justice, and Rocco's picked judges indict Marinelli for kidnapping and sequestering Matteotti! Debono sits there, too—Debono, the author of an autograph charging that Marinelli accused Mussolini himself in the Matteotti affair!

Wasn't it Mussolini, too, who proclaimed June 13 that it was an abominable international crime, and then later instructed Farinacci to boast that it was a political fatality? And wasn't it Mussolini who publicly assured the Italian people that the guilty ones would not benefit from the amnesty law and yet in August caused the King to sign an amnesty proclamation which placed the gag on the truth?

Didn't this same Mussolini, after promising strict justice, remove those guilty ones who had taken the investigation seriously? Do not these insane, iniquitous maneuvers themselves constitute proof of Mussolini's responsibility?

History will see Matteotti's murder as the inevitable consequence of a political situation

The photograph reproduced above was taken in Rome about the time of the killing of the socialist leader Matteotti.

which existed, and will find it far less iniquitous than that other premeditated, organized and continuous criminal system—by which I mean that all the powers of state in Italy have criminally set their strength against justice.

### Actual Slayers Not Known.

Why, then, speculate as to who actually murdered Matteotti and how? That concerns individual consciences and God alone can know.

All I know myself is that when Matteotti was kidnapped and thrown into the automobile which was to become his tomb the murderers believed that they were obeying a higher law than their own individual wills. These men were derelicts of the moral sort produced by the war. They cannot be considered as hired cut-throats (although some show serious moral lapses), but the faithful, fanatical followers of Mussolini, who are not responsible for the disorderly aberrations of their minds.

There is ample proof that Duni and Volpi had been and still were on terms of cordial familiarity with Mussolini; that Volpi had several times received orders to commit acts of violence, such as throwing a bomb into the Socialist parade, Nov. 17, 1919.

It is a fact that, although I did not even know the name of Giuseppe Viola, Mussolini told me Friday, June 13—when I knew nothing of the number or names of the alleged criminals—"Viola has three medals for bravery. Those medals must tinkle at the right moment. The time for apology will come!"

### Slayers Returned to Palace.

Moreover the fact is that those who returned from the mad, tragic episode went to the Chigi Palace to wash their bloody hands leaving the murder car momentarily in the palace courtyard. Doesn't that

show with what impunity the perpetrators felt themselves investigated? Meanwhile, what was Mussolini's attitude? It destroys the legends of his moral courage and brutal sincerity.

Mussolini was as false and cowardly after the Matteotti trial as he has always been. Until the blood-stained motor car was found, he was cynically passive, deeply rejoicing at the lesson given to his enemies. The evening of Wednesday, June 11, when Matteotti's disappearance was rumored, in the Chamber, Mussolini uttered the following words: "Those stinking socialists are worried because they can't find their Matteotti. He probably ran away with some girl."

Like all those Fascists who heaped slanders on me subsequent to the Matteotti trial, he was not concerned with the death of an adversary, but was concerned solely with the possible adverse effects upon the party.

This confession and Mussolini's prelude of an obscene symphony which the great Fascist orchestras were later to strike up to drown the voice of outraged justice. In August, 1925, the King of Italy signed the amnesty decree which included all crimes up to murder, including attempted murder, and shortened all sentences for political offenses four years. These decrees come regularly in Italy and prove how evidence is a condition of strife in this country.

The granting of general amnesty every two or three years irritates and humiliates the magistrates. They become discouraged in carrying on criminal investigations, and since the Government, while granting amnesty, has nothing to say politically, bitterness of the whole purpose is vitiated and amnesty accomplishes nothing except further to destroy public respect for law.

The Fascist Government, since it took power, has granted four amnesties! And already it is evident that it must grant a fifth this summer in order to choke revelations connected with the incidents in Florence, which would compromise the highest state authorities.

### Amnesty a Trick.

Almost every Fascist thus far arrested has boldly denounced the party leaders as responsible for the Florentine crimes. Just remember that in the investigation of the murders of Deputati Pilati and Consolo there have already been three changes of venue.

The August amnesty was a trick by Mussolini to stifle exposures in the Matteotti affair, throughout which the Government has dithered from one desperate expedient to another without any coherent plan. Had the consciences of the leaders been clear it would have been possible to let justice take its course in an orderly, inexorable fashion. Instead of this, arbitrary justice, justified by the "trick" of the amnesty, has overshadowed the second and greater aspect of the Matteotti affair—namely, that of the trial, or rather the failure to hold the trial.

Public opinion, which rarely errs, passed its terrible judgment on that procedure, saying "Mussolini has annihilated himself."

(Copyright, 1926.)  
To Be Continued.

## ARCTIC EXPLORERS HAVE YET TO MAP SUBMARINE DEEPS

Dr. Fridtjof Nansen Says  
Biggest Task Remaining  
Is to Chart the Continental  
Shelf.

### DOUBTS EXISTENCE OF UNFOUND LANDS

Recognizing Limitations of  
Airplanes, He Thinks Dir-  
igibles Promise Best Ser-  
vice.

Special to the Post-Dispatch.  
NEW YORK, March 16.—The

biggest geographical task for explorers is to chart the depth of the Polar sea in all directions and to establish roughly the boundaries of the continental shelf. This is the opinion of Fridtjof Nansen, Norwegian scientist and Arctic explorer, who also outlines other problems of the polar region, in the forthcoming April issue of the Forum.

The northernmost coast lines of the great continents, as they circle about the polar regions, have been located and surveys made. There may be islands, large or small, still waiting to be discovered in the polar seas, but there is no likelihood that a great continent, millions of miles, has been overlooked, Dr. Nansen thinks. What has not been done, he explains, is to map the northern fringes of the continents which are covered by comparatively shallow water. This under-sea land, known as the continental shelf, extends far out beyond the visible coast and is a part of the continent itself.

### Submarine Cliff.

The edge of a continental shelf forms a cliff where the sea floor drops to the great ocean depths of several thousand feet.

From the north of Siberia this continental shelf extends very far, for hundreds of miles, says Dr. Nansen. "Its surface, which is remarkably even, is not very far below sea level, much of it being less than 150 feet down. It was over this remarkably shallow continental shelf that both the Jeanette (1879-81) and the Maud (1912-24) drifted along their two years' north. Only at one place, namely north of the New Siberian Islands, on the Fram's drift route in 1892, has the edge of this shelf been definitely located. At that place it was more than 200 miles north of the Siberian coast. At another point, about midway between the New Siberia Island and Cape Chelouskin, the Russian expedition of 1913 took a sounding of 1319 feet without reaching the bottom, and it seems probable that they were then at the edge of the shelf."

### Shelf Near Point Barrow.

"North of Canada the continental shelf also extends for a great distance, but exactly how far is entirely unknown. North of Alaska, at Point Barrow and eastward, the edge of the shelf comes very near the coast."

The Norwegian expedition, of 1924-25, aboard the Fram discovered that there was a deep ocean basin, with depths ranging from 9800 to 12,620 feet, in the regions near the North Pole, says Dr. Nansen, but how far the deep polar sea extends and where it is broken by submarine ridges has not yet been investigated.

The importance of also studying the physical conditions of the Arctic wastes is emphasized by Dr. Nansen, who declares that "trying to discover the laws governing the circulation of our atmosphere without a knowledge of the polar regions and their physical conditions is comparable to the action of a man attempting to study the laws by which water circulates in the heating apparatus in a house, without knowing anything about the radiators that emit the heat."

### Fins Hope on Airships.

Limitations of the airplane have been demonstrated by Amundsen's experiment, in the opinion of Nansen, but the airship he regards as much more promising. Given a large airship, capable of carrying a crew and equipment for investigation, he says, the most important geographical problems of the unknown north can be solved in the course of a few weeks.

### House Passes Embassy Bill.

WASHINGTON, March 16.—A bill to provide \$10,000,000 for American embassy and consular buildings abroad was passed by the House and sent to the Senate. The vote was 195 to 45. The bill, which would create a commission composed of the Secretary of State, Treasury and Commerce and four members of Congress, to negotiate for diplomatic buildings whenever it was considered advisable, had administration endorsement and was advocated as an economy proposal.

## HOUGHTON HOME FROM ENGLAND

U. S. Ambassador Declines to Discuss  
Rumor of Kellogg's Post.

Special to the Post-Dispatch.  
NEW YORK, March 16.—Alanson B. Houghton, American Ambassador to Great Britain, arrived here yesterday on the United States liner President Roosevelt. He declined to discuss the rumor he was being groomed to succeed Frank B. Kellogg as Secretary of State. Mrs. Houghton and their daughter were not with him. Houghton, who before he took his present post was Ambassador to Germany, appeared the picture of health and insisted his visit was of no great significance. He said, however, he had been summoned home by President Coolidge with reference to the proposed disarmament conference, sponsored by the League of Nations. He will be in this country about three weeks. After a brief visit to Corning, N. Y., his home, he will go to Washington. Hugh S. Gibson, Minister to Switzerland, slated to head the

## Federal Judge Pay Rise Approved.

WASHINGTON, March 16.—Salary increases for Federal Judges have been approved by the Senate Judiciary Committee in reporting a bill by Senator Reed (Dem.) of Missouri. The salary of the Chief Justice would be increased from \$15,000 to \$21,000. Associate Justices of the Supreme Court would get \$20,000, instead of \$14,500. Circuit Judges, \$15,000, instead of \$8,500, and District Judges, \$12,500, instead of \$7,500.

## U. S. PARTY TO ENTER WILDS

IN SEARCH OF PIGMY TRIBES

Dutch Infantry to Guard Man in  
Unexplored New Guinea and  
Planes Will Transport Food.

WELTEVREDEEN, Java, March 16.—The American scientific expedition under Prof. Matthew Stirling of Berkeley, Cal., which is to penetrate the unexplored interior of Dutch New Guinea and study the pygmies and other unknown tribes, will soon start on its adventurous journey.

Accompanied by a detachment of Dutch infantry under a Lieutenant all the American members of the expedition will embark at Sourabaya, expecting to arrive at Pionere's Bixoux, New Guinea, toward the end of April. They will take with them an airplane, two motor boats, two wireless sets, ten Dajak proas (canoes) each built to accommodate eight men and 40 Dajak rowers. The second part of the expedition, consisting of 150 natives and

two detachments of infantry under a Captain, will leave Manokward, on the New Guinea coast, toward the middle of April, arriving at Pionere's Bixoux about May 6.

In entering the interior, the explorers will follow the Mamberano and Rouffaa rivers. A base camp will be established at the foot of the Snow Mountains, from which the members will penetrate further into the canyons of the Upper Rouffaa, where the pygmies are thought to live. Foodstuffs will be delivered to them by airplane.

Federal Judge Pay Rise Approved. WASHINGTON, March 16.—Salary increases for Federal Judges have been approved by the Senate Judiciary Committee in reporting a bill by Senator Reed (Dem.) of Missouri. The salary of the Chief Justice would be increased from \$15,000 to \$21,000. Associate Justices of the Supreme Court would get \$20,000, instead of \$14,500. Circuit Judges, \$15,000, instead of \$8,500, and District Judges, \$12,500, instead of \$7,500.

## River Advocates and Contractors in a Row

Continued from Page 19.

present system lets contractors "show the buck and reasonable and that it does its own work where combinations of contractors seek to increase prices.

St. Louis construction interests that he would like to see contractors prosper, but that he felt that his first duty was to the taxpayer. "While bill is not in the public interest," Newton declared, "and I am unalterably opposed to it."

When the \$20,000,000 appropriation for rivers and harbors in the army supply bill was under discussion in the House, Newton learned that an amendment embodying the provisions of the Campbell bill might be introduced. To meet this possible emergency, which, incidentally, did not materialize, he obtained from Gen. Taylor the amount of money such a plan would cost the Government.

His figures are necessarily only approximations because the profits of contractors are merely estimates. By Newton's calculation the Government would lose most heavily when it sought to dispose of its \$20,000,000 worth of rivers and harbors equipment. The only market for this specialized machinery would be the contractors and the Government would have to accept their prices or scrap it for junk, he said.

**Denies Government Competes.**  
"About half the rivers and harbors improvement work is now performed by the Government itself," Newton explained. "When the cost of maintenance is deducted from the annual appropriation for this work, there is a remainder of \$20,000,000 or \$40,000,000. The contractors want to compel the War Department to let virtually all this work by contract regardless of what the work would cost if the engineers performed it. The Campbell bill states that not more than 10 per cent of any appropriation can be utilized by public forces and that is a very small percentage."

Gen. Taylor told me, and I presume that he will tell the Judiciary Committee Friday, that it has been the custom of the engineers to prepare estimates of the work, advertise for bids and if the contractors come within 25 per cent of the estimate, to give them the contract. This procedure is followed just because the Government doesn't want to compete with private business. It is merely getting a dollar for dollar return for the money Congress appropriates. Under the contractors' plan the Government would get only 50 or 60 cents return from every dollar because these men are in the business for profit. We had too much experience with contractors during the war to accept for a fact that patriotism comes first and profits second."

"The fact that the Government can do the work if necessary has kept the private bids down. On the other hand, private bids have gone up where the contractors knew the Government couldn't do the work. Such a condition exists in the Hawaiian Islands now. We have appropriated \$2,000,000 for the improvement of the harbor at Honolulu. On the islands there are only three or four contractors able to do the work. The bids of these contractors have been so high that the army engineers have refused to proceed with the work, and only lately by the threat to import machinery from the States have they been able to get within talking distance with the contractors."

**Answers Contractors' Propaganda.**  
In the propaganda sent to Washington correspondents, the contractors have maintained that "the Government cannot do construction or any other business which requires human effort as efficiently or as economically as it can be done by experts trained in that particular line of activity," adding that "it is a well-known fact that the public dollar will not buy the same efficiency as the private dollar."

When this statement was brought to Newton's attention, he said, "the contractors in their bids must include the salaries of their highly paid officials. We have the services of such men as Gen. Taylor, whose salaries are paid by the War Department. The army engineers are the best trained engineers in the country. If not the world. They are selected from the best students of West Point, they have a rich background and they are incorruptible. There has never been a scandal in the Army Engineer Corps. The work of these men is their record and their record is one of efficiency."

"It stands to reason that these men can perform their engineering tasks more efficiently and with greater permanency than private contractors who are seeking profits. Even if they could not, and it cost as much to perform the work by engineers as by private contractors, I'd still be in favor of the engineers on the grounds of military expediency. These men are getting the practical training they would need in event of a war. Besides this, they must do a certain percentage, and necessarily a large percentage, of the work, so they can make intelligent estimates on the work that is to go ultimately to the private contractors."

Newton was chagrined at the lobbying the contractors have started. He produced five letters received in the morning mail, all from St. Louis, urging him to vote for the bill. They were signed

with different names, with no addresses, but close scrutiny revealed that all had been written on the same typewriter.

At the hearing last week, General Marshall, spokesman for the contractors, merely outlined the nature of testimony other witnesses were expected to give. Contractors from various parts of the country followed him with their grievances against the present system.

**Statement for Contractors.**  
Meeting the statement that the engineer corps is justified in doing construction work because of collusion and price fixing among the contractors, D. A. Garber of New York said:

"Collusion among contractors bidding on specific jobs would be impossible without the knowledge, consent and connivance of the engineers or representatives of the owners of the Federal, state, county or municipal owners. There is no business in the country today where the competition is as keen as in the competitive system generally used in construction, and the great number of contractors seeking business in this highly competitive field would of itself make collusion impossible, except possibly with the connivance of those in authority."

"I do not believe that a Government, either Federal, state or municipal, should be in any business for profit; that is not a Governmental function."

Newton answered this by saying that under the contractors' plan, the Panama Canal work would have been turned over to private capital, and the post office department would be abolished to make way for a contract mail delivery.

### TWO ROBBERY CASES AGAINST FLOYD FLOOD NOLLE PROSSED

Action Frees Man Who Spent Time in Prison for Crime He Didn't Commit.

Floyd Flood, who was recently released from the Chester (Ill.) penitentiary after serving more than a year on a bank robbery charge of which he was proved innocent, yesterday was freed of two charges of robbery which have been pending against him at Clayton.

The charges grew out of the robbery of two men held up in Forest Park and taken to the county in an automobile. Assistant Prosecuting Attorney Noble nolle prossed the charges on the ground that an important witness was in California. Another man had been jointly charged with Flood, but the charges were nolle prossed some time ago. Flood denied the charge.

**Senate Passes Claims Resolution.**  
By the Associated Press.  
WASHINGTON, March 16.—Chairman Borah of the Senate Foreign Relations Committee has undertaken to prod the State Department on the settlement of the claims of American citizens against Great Britain and France arising out of violations of the rights of neutrals from the opening of the World War until the United States became belligerent. The chairman introduced a resolution calling on Secretary Kellogg to advise the Senate, if not incompatible with the public interest, what steps he is taking to negotiate claims convention with London and Paris. The resolution was referred to the Foreign Relations Committee.

**Pontifical Titles' Tax Reduced.**  
By the Associated Press.  
ROME, March 16.—Princess, Counts and other nobles created by Papal warrant have had to pay large taxes to the Italian Government before they could use their titles. The Fascist rulers, however, in conformity with the tendency toward reconciliation with the Church, have now cut the taxes by 50 per cent.

**Old, Contracted Limbs. Joints and Tendons**  
Many people have become despondent because they have been led to believe that there is no remedy to help their condition. Sufferers should ask for a small bottle of Moore's Emerald Oil at any good drug store. It softens the cartilage around the bones, takes the soreness out of the ligaments and tendons and makes the pain. The first application gives instant relief and comfort. Thousands have reduced their suffering and others by simply applying Moore's Emerald Oil. All good druggists have it, but you can be sure to get it at Heffter Drug Co. or Ward-Wilson Drug Store or Johnson Bros. Drug Co.

### ACTOR FOR 61 YEARS DIES

William H. Burton, 82, Supported Joseph Jefferson.

NEW YORK, March 16.—William H. Burton, an actor on the American stage for 61 years, who had played the title role in "David Harum" and for 12 years in "Shadows of a Great City," died at his home here. He was 82 years old.

Burton made his stage debut at Ford's Theater, Baltimore, in 1865. He supported Charlotte Cushman, Maggie Mitchell and Joseph Jefferson, among other stars. Some of the productions he acted in were "The Lion and the Mouse," "The Quaker Girl" and "The Cave Man." Since his last stage appearance, with Faversham, in "The Squaw Man," he had been in motion pictures. He is survived by his widow, a daughter and two grandchildren.

At the hearing last week, General Marshall, spokesman for the contractors, merely outlined the nature of testimony other witnesses were expected to give. Contractors from various parts of the country followed him with their grievances against the present system.

Meeting the statement that the engineer corps is justified in doing construction work because of collusion and price fixing among the contractors, D. A. Garber of New York said:

"Collusion among contractors bidding on specific jobs would be impossible without the knowledge, consent and connivance of the engineers or representatives of the owners of the Federal, state, county or municipal owners. There is no business in the country today where the competition is as keen as in the competitive system generally used in construction, and the great number of contractors seeking business in this highly competitive field would of itself make collusion impossible, except possibly with the connivance of those in authority."

"I do not believe that a Government, either Federal, state or municipal, should be in any business for profit; that is not a Governmental function."

Newton answered this by saying that under the contractors' plan, the Panama Canal work would have been turned over to private capital, and the post office department would be abolished to make way for a contract mail delivery.

## \$410 Complete Eight-Piece VENETIAN WALNUT BEDROOM OUTFITS

Consisting of large dresser, bow-end bed, chiffonade, vanity, rocker, bench, \$30 Imperial mattress and Foster Bros. double-deck spring

All Priced at Only

\$245

This Complete 8-Piece Outfit Exactly as Shown—at \$245.00

COMPLETE 8-piece "Venetian" walnut Bedroom Outfits, expertly made with decorations of bird's-eye maple; the panels are beautifully blended and high lighted. Mahogany interiors are featured and the drawers are dustproof. The exquisite Tudor period, together with antique hardware and gold-vein line, makes these Outfits unusually desirable. See them arranged in our Bedroom salon just as they will look in your home.

gress for modification of the Vol-

stead act. A move that the request

be filed carried unanimously.

## LABOR CHIEF IN CITY

By a Post-Dispatch Photographer.  
WILLIAM GREEN.

### WILLIAM GREEN HERE FOR SPEECH TONIGHT

Head of A. F. L. Thinks Prohibition Should Have Been Introduced Gradually.

William Green, president of the American Federation of Labor, arrived in St. Louis today and will deliver an address tonight before the St. Louis Bar Association regarding strike injunctions and other legal difficulties which confront organized labor.

In an interview with reporters at Union Station, Green expressed his views on general labor conditions, prohibition, communism, convict labor and other subjects.

**About Prohibition.**  
"Prohibition is bound to be an issue, more pronounced and intense than ever before, in the next national election," said Green, who is personally a dry, unlike his predecessor, the late Samuel Gompers.

"The present situation is chaotic. Looking back on the matter, we sometimes speculate whether a reform such as prohibition should not have been introduced gradually. Perhaps it would have been better if only liquors were wiped out, leaving light wines and beers. Later light wines and beers could have been abolished if desirable."

The position of the American Federation of Labor, as expressed in resolutions adopted in annual convention, is in favor of the return of light wines and beers.

**Assails Communism.**  
"Communism," Green continued, "has nothing in common with union labor in this country. There can be no working arrangement between the communists and union labor, as their interests do not touch at any point. The issue is whether the American Federation of Labor or Russia shall speak for American workmen."

The A. F. L. is gaining in strength, numerically and otherwise, Green said. General peace and prosperity prevail, and since the coal strike was settled no major strike exists in any section, he added. The textile workers' strike in the East is a communistic origin and has nothing to do with the Federation, he said.

**"Watching Congress."**  
Union labor is "watching Congress closely," he went on, particularly in regard to pending legislation which would prohibit the interstate transportation of commodities made in the United States and other goods now being shipped to prevent their own prison products from being marketed in competition with the products of free labor, but these States are unable to keep out prison goods from other States, Green explained.

A reception committee from the Bar Association met Green at Union Station and showed him about the city, also taking him for an inspection of the new municipal waterworks on the Missouri River. Later he conferred with local labor leaders. He also will speak tomorrow morning at Washington University, after which he will return to New York.

**DE BALIVIERE AV. ENTRANCE  
TO PARK TO BE BEAUTIFIED**  
City Plan Commission Asks Board of Aldermen to Take Preliminary Step.  
Plans for the improvement of De Baliviere avenue, which will make it the most attractive entrance to Forest Park, are being made by the City Plan Commission. The first step in carrying out the plan was a request made today of the Board of Aldermen that a strip of 100 feet on either side of De

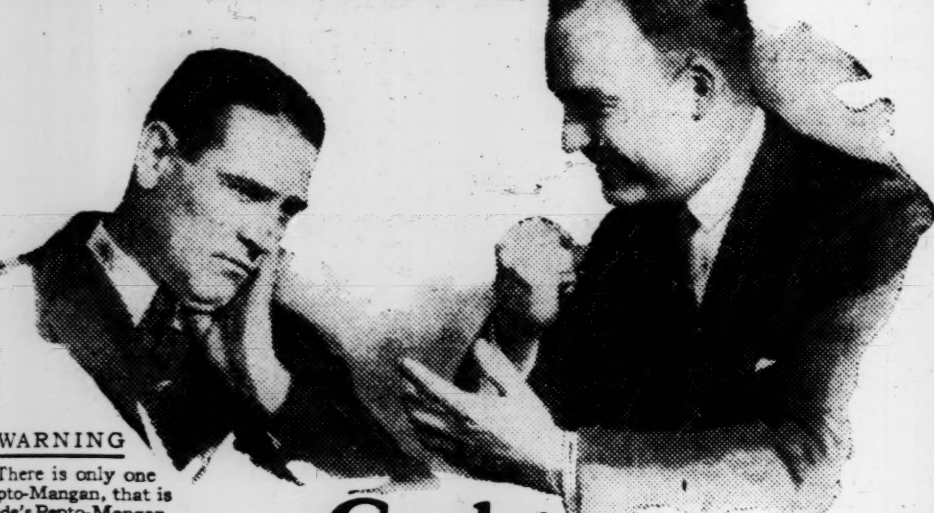

Baliviere, from Lindell drive to the Wabash tracks, be condemned or purchased. The project would cost about \$50,000, which must be appropriated by ordinance. The commission proposes to beautify the strips on each side of the street by making elaborate parkways. The purchase is designed to prevent the encroachment of buildings which might cut off a view of the Jefferson Memorial.

**Young Democrats to Meet April 13.**  
Special to the Post-Dispatch.  
KANSAS CITY, March 16.—The first State-wide gathering of the Young Democrats' Jefferson Club will be the night of April 13 at the Hotel President. The main event will be a dinner to commemorate the birth of Thomas Jefferson. Places will be provided for 1000 guests.

### When You Feel the Need of a Good Tonic—

PHYSICIANS naturally know best, and for over 33 years physicians have been prescribing Gude's Pepto-Mangan in thousands of cases. Experienced practitioners cannot be deceived by the marvelous claims of so many unscientific preparations. But they know the value of the iron, manganese and predigested albumin in Gude's Pepto-Mangan.

So if you feel the need of a quick and efficient tonic, prescribe Gude's for yourself TODAY. Your druggist has it in both liquid and tablet form.

**WARNING**  
There is only one  
Pepto-Mangan, that is  
Gude's Pepto-Mangan.

**Gude's  
Pepto-Mangan**  
Prescribed by Physicians for 33 Years

**What Doctors Write**  
"I regard Gude's Pepto-Mangan as one of the best tonics."  
"I have obtained very excellent results with Gude's Pepto-Mangan in cases of simple anemia. Am a prescriber of it where indicated."  
"I have been prescribing Gude's Pepto-Mangan now for quite a number of years. I have always found it a valuable tonic and the extremely pleasant and palatable form in which Pepto-Mangan is prepared, combined with its easy assimilation, has rendered it invaluable to me in my practice."  
"I have used it for 15 years with always the uniform good results."

and  
**AUTOMOBILE**  
**MANUFACTURERS**

PLATING and enamel will give a lot of snap and sparkle to any kind of hardware on a car—in the salesroom.

But they won't keep snap and sparkle on every kind of hardware when the car begins to get the gaff on the road.

Rust is no respecter of plating or enamel. It attacks the metal underneath if that metal is corrodible.

Soon there are rust-spotted door and window handles, corroded rails and striker plates, rusty screws and fasteners—snap and sparkle of metal parts fading to a dinginess that gives a car a shabby look.

But when the hardware is solid BRASS or BRONZE it retains its good looks.

BRASS or BRONZE hardware takes a wide variety of fine finishes and holds them in hard service because it is rustproof.

## BOY ON ROLLER-SKATES HIT BY TRUCK, DRIVER FLEES

Policewoman a Witness to Accident in Which Leg of Child Is Broken.

While roller-skating in Clara War between Maple and Vernon avenues at 3:45 p. m. yesterday, Jack M. Lane, 17 years old, of 5823 Plymouth avenue, was struck by an automobile truck, suffering a fracture of the right leg and laceration of the skin.

The truck driver continued west in an effort to escape, permitted a man who was with him to alight and return to the scene and then drove away. Policewoman Bertha French, daughter of Police Captain Martin O'Brien, witnessed the accident and questioned the driver's companion, who said he was George Brown and gave an address on Washington boulevard. He gave the name of the driver and an address on Olive Street road, where he said the driver lived.

The policewoman took the McClain boy to a nearby physician's office and "Brown" disappeared. Police went to the Washington boulevard address, but the man was not known there. The Olive Street road address proved to be a vacant lot.

**PAYMENTS \$133,306 SHORT ON STATE GASOLINE TAX**

Of That Amount \$56,265 Has Been Collected Since Audit Revealed Condition.

*By Associated Press.*  
JEFFERSON CITY, March 15.—During the first nine months of last year the payment of \$133,306 in state gasoline taxes was either evaded or omitted through clerical error, according to an audit of the gasoline tax account made public today by State Auditor Hackmann.

Since the omission and evasions have been uncovered by the check the state has collected \$56,265 of the \$133,306. Among the companies which have received notice that they still owe payments of the tax at two cents a gallon, are: Gas and Motor Fuel Co., St. Louis; \$18,849; Kansas City, \$12,847; Eley Petroleum Co., \$12,111; Liberty Bell Oil Co., \$7,949; Star Gasoline Co., \$4,787; United Consumers Co. of St. Louis, for gasoline used by People's Motorbus Co., \$4,467.

**INCOME TAX RECORD IN CHICAGO**

Payments Since Jan. 1 Have Totalled \$19,327,295.

*By Associated Press.*  
CHICAGO, March 15.—A new income tax record has been made in the Chicago district, payments since Jan. 1 totaling \$19,327,295.22, or \$6,024,837.45 more than last year's first quarter receipts.

All previous records for the district were eclipsed by millions, although only 198,799 made returns this year, compared to 291,000 last year. Mrs. Mabel G. Reinecke, Internal Revenue Collector, attributed the record to the apparent increased prosperity of big corporations and to the fact that more persons than ever before were able to pay the entire year's tax in the first quarter. Two quarterly payments were the largest, one for \$1,829,000 and the other \$1,200,000. The largest individual quarterly payment was \$189,000.

**FLOUR MILL CONSOLIDATION**

B. B. Scheffeld Takes Over Larabee Interests in Kansas City.

*By Associated Press.*  
MINNEAPOLIS, Minn., March 15.—B. B. Scheffeld, president of the Commander Mills Co. of Minneapolis, with a group of associates today took over the Larabee Flour Mills corporation of Kansas City, which operates six flour mills in Missouri and Kansas. The consolidation is regarded as the largest in recent years in the American milling industry and gives the Scheffeld interests control of mills with an aggregate capacity of 26,000 barrels a day.

Larabee Flour Mills Corporation has mills at St. Joseph, Mo., Wilmington, Kan., Hutchinson, Kan., Clinton, Mo., Marysville, Kan., and Topeka, Kan.

**MAJ. P. H. BAGBY FOUND DEAD**

Special to the Post-Dispatch.

LEAVENWORTH, Kan., March 15.—Major Philip H. Bagby, 40 years old, infantry captain in the general staff and command school, was found dead in his office at the school this morning at 8 o'clock. A wound in the head and a revolver near by indicated suicide.

Military authorities decline to discuss the matter. It was said that Maj. Bagby had been despondent for some time. A board of inquiry has been named to investigate Bagby's death.

**MAN, 69, INJURED BY AUTO**

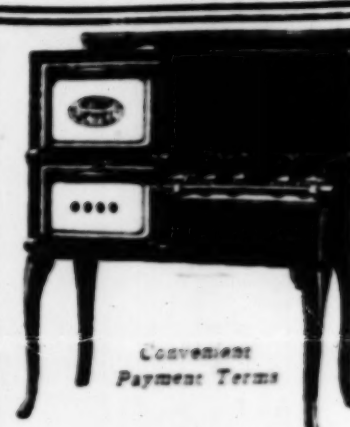

Struck at Grand Boulevard Crossing—Driver Arrested.

Nels Jacobson, 69 years old, a janitor, of 3622 West Pine boulevard (rear), suffered a fracture of the right thigh when he was struck by an automobile at Grand and Lawton boulevards at 8:45 p. m. yesterday. The driver, who identified himself as Harry Rathjen, 35, of 4733 Hummel avenue, was arrested.

**Verdict in Death of U. S. Inspector.**

*By Associated Press.*  
CHICAGO, March 15.—Dr. Wesley M. Neil, chief Government inspector at the Chicago stockyards, died of poisoning, a coroner's jury decided today, adding that whether the poison was taken with suicidal intent could not be determined.

Mrs. Neil and her son, Garvin W. Neil, said they knew of no reason why he should have killed himself. They joined with Dr. Samuel D. Nixon in testifying that Dr. Neil told them he took the poison accidentally.

## Marvelous Discovery Ends Burn Pains in Three Minutes

FOR quick, sure relief from burns, nothing so effective as OIL-of-SALT has ever been discovered before! The action of this new antiseptic and head-ant is little short of marvelous. It is so potent that it kills burn pains in three minutes! Cool and soothing—never smarting in the slightest degree.

OIL-of-SALT gently penetrates the inflamed tissue and insulates the seared nerve ends. At the same time scientifically selected ingredients stimulate growth of the new tissue at once. Healing actually commences a few moments after burn is received. No wonder Fire Departments in over 200 cities say they "can't do business without it" and

Don't wait until emergency arises. Be prepared with OIL-of-SALT today. Its marvelous for sunburn, too. Your druggist will supply you. Money cheerfully refunded if you are not entirely satisfied. Just write

**OIL-of-SALT**

## FOUR out of FIVE are caught.

IT'S sheer carelessness to let pyorrhea cause trouble in your mouth. Yet your dentist knows that four out of five past forty, and many younger, suffer from this serious gum disorder.

It begins with tender bleeding gums. Soon the teeth loosen in their sockets and the poison spreads through the system, causing rheumatism, neuritis and other similar diseases.

Forhan's for the Gums is the simple, easy way to keep you out of pyorrhea's clutches. It's a pleasant dentifrice that firms the gums and gives the teeth a thorough cleansing.

It contains Forhan's Pyorrhea Liq-

**Give Your Dentist a chance**

Too many wait until an aching tooth forces them into the dentist's chair. It is folly to suffer this needless pain when all you have to do is to give your dentist a chance to prevent trouble in your mouth by visiting him at least twice a year for a thorough teeth and gum inspection.

uid which has been used by dentists for the last 15 years in the treatment of pyorrhea.

If used regularly and in time, Forhan's prevents or checks pyorrhea and so is an important safeguard to health. Begin today to use Forhan's night and morning as a wise precaution. All druggists, 35c and 60c in tubes.

## Why

Don't fool yourself. No one really wants gray hair. The world accepts it as a sign that you are aging—and the world wants Youth.

Thousands of men whose hair was gray or "streaked" have tried—and they are frankly the improvement in their appearance.

For, with the aid of colorless liquid, gray hair is natural shade—not over-awkward and embarrassing dyes are used—usually that the change is seen from day to day, often appear in a week.

## Why Have Gray Hair?

Don't deceive yourself. No one really wants gray hair. The world accepts it as a sign that you are aging—and the world wants Youth.

Thousands of men and women whose hair was gray or becoming "streaked" have tried Kolor-Bak—and they are frankly delighted at the improvement it has made in their appearance.

For, with the aid of this clean, colorless liquid, gray hair regains its natural shade—not overnight as is so much advertised—but so gradually that the change can scarcely be seen from day to day. Yet results often appear in a week.

Kolor-Bak has the added virtue of a tonic. It gives the hair a beautiful softness and lustre and at the same time rids dandruff. Try it. No sample of your hair is required. The same bottle may be used by everyone. And you can get your money back if desired results do not appear. Guarantee in each package.

## FAMILY OF 3 OVERCOME BY GAS; ONE DIES

Boy, 2, Found Unconscious With Mother and Brother, Succumbs in Hospital.

A mother and her two small sons were found unconscious in a gas-filled room at 1017 O'Fallon street last yesterday, grouped about a gas heater from which fumes were escaping. The youngest boy, Edward McDaniel, two years old, died at City Hospital. The mother, Mrs. Josie McDaniel, 24, and the other boy, Frank Jr., 4, are recovering today.

Mrs. McDaniel said the poisoning was an accident. The children were ill, she declared, and she was warming water on the heater to bathe them before taking them to a public clinic, when she lost consciousness. She believes she fell asleep and the water boiled over. Mrs. McDaniel said she had been separated for more than a year from her common-law husband, Frank McDaniel, a taxicab driver, and that he refused to contribute to her support unless she surrendered the oldest boy to him. She worked for a pharmaceutical company for \$10 a week, leaving her children in a day nursery. For the past 10 days she has lived at the O'Fallon street address, the home of Peter Bommerita, from whom she kept house in exchange for low rent.

Yesterday she remained at home because the children were suffering with severe colds. She was found by Bommerita when he came home at 5:30 p. m.

**SENATOR PEPPER OPENS FIRE**  
Attacks Pinchot and Vane in Pennsylvania Race.

PHILADELPHIA, March 16.—Senator Pepper has fired the opening gun in his triangular contest with Gov. Pinchot and Representative William S. Vane for the Republican nomination for the United States Senate at the primary election in May. Declaring that Pinchot's claim to allegiance to the Coolidge administration was "counterfeit" and that the people wanted "someone who is not the candidate of the brewery interests," Pepper asserted that the voters would nominate neither Pinchot nor Vane.

"They want somebody who is a straight Republican and not a counterfeit supporter of the Coolidge administration," said the Sen-

ator. "They want somebody who is not the candidate of either the brewery interests or of the lunatic fringe."

There also is an active campaign

to succeed Pinchot as Governor. The latest aspirant is Representative Thomas W. Phillips Jr., who at Washington has announced he favors modifying the Volstead Act.

## "I WAS SICKLY AND COULDN'T EAT"

Then Kellogg's ALL-BRAN brought permanent relief

Constipation takes its toll in health and happiness—but read what Mr. Jessup has to say: "I was always sickly and could not eat—but last May I was told about Kellogg's ALL-BRAN. Since using Kellogg's ALL-BRAN I have not lost a day's work. In May I weighed 100 pounds. I now weigh 135 pounds, and it's all due to eating Kellogg's ALL-BRAN."

J. E. Jessup, East St. Louis, Ill. Don't let constipation sap your health, undermine your strength. It can cause over forty serious ailments! Bloated skin, sick headaches, nervousness, anemia—are but a few of the symptoms. Beware!

Kellogg's ALL-BRAN is guaranteed to relieve the most chronic constipation if eaten regularly. Because Kellogg's is ALL-BRAN—a 100% bran product—100% effective.

Eat Kellogg's ALL-BRAN with milk, cream and fruit. Use it in cooking too. Made by Kellogg in Battle Creek, Michigan, and sold by all grocers. Served in all restaurants.

**Kellogg's**

## When the Kidneys Act Too Freely Take Liquid Shumake

When the kidneys are overactive, normal condition all misery from that source is relieved. Liquid Shumake is prepared especially for overactivity of the kidneys and relieves kidney weakness by removing the cause of the trouble. The strain on the kidneys and the entire system, with continuous interruption of sleep, is bound to break down the good health of even strong men and women if the kidneys are not restored to normal activity. Most people who have kidney trouble are bothered with excessive kidney action, and in many cases if the kidney action is restored to a

## Safest Way to Stop Pain

It is no longer necessary to take heat-depressing drugs or dose of any kind to relieve nerve torture caused by neuritis, sciatica or rheumatism. Just apply Tylenol over the part that hurts and see how quickly you will be free from discomfort. Tylenol is a soothing, healing absorbent that goes in through the pores and drives out the inflammation which has settled in the nerve. The minute you rub it on you can feel it beginning to work. Pains and aches soon stop, congestion is removed, and soreness and inflammation gradually disappear.

Although Tylenol is put up specially for nerve pain and inflammation, sufferers have found it equally good for taking the soreness out of stiff, aching joints. Pleasant, harmless and easy to use. Don't fail to try it. Price \$1 at good drug stores everywhere. Always on hand at Walgreen Drug Co., Wolf-Wilson Drug Store, Tyndal Company, M.G. Chemists, 400 Butler St., San Francisco.

THE ROAD OF TRAVEL LUXURY

YORRHEA

Mr. Charles Grapewin  
811 No. Arden Blvd.  
Los Angeles, Cal.

## Now—he eats anything he wants

"It surely is great," declares Mr. Charles Grapewin, the popular actor, "to be able to eat anything you want without fear of gas or other stomach trouble." Certainly, no one ever suffered more than Mr. Grapewin did.

While playing in New York, in his well-known success, "The Awakening of Mr. Pipp," Mr. Grapewin was taken with acute stomach trouble and it seemed as if an operation would be necessary. Fortunately he was induced to try Adlerika. Results were so good that he has never been without a bottle since. His friends marvel at his wonderful appetite and the variety of food he can eat with no bad after-effects.

"Most of the members of the exclusive Wilshire Country Club of Los Angeles," says Mr. Grapewin, "now use Adlerika for stomach gas and intestinal trouble."

ADLERIKA gives the system a REAL cleansing and brings out old hidden poisons which may have been causing trouble for a long time. Just one spoonful of Adlerika relieves gas and takes away that miserable bloated feeling so that you can eat what you like and can sleep without rolling restlessly from side to side.

Even if your bowels move every day, Adlerika brings out much additional matter which you never thought was in your system, and which may have been causing sour stomach, sleeplessness or headaches.

Don't wait any longer, but let Adlerika give your stomach and bowels QUICK relief. Over 39,000 druggists now sell Adlerika. If yours does not, he can easily get it.

A. H. Lewis, Chicago

# Adlerika

For Gas on the Stomach and Chronic Constipation

## ROBBERS TAKE DOCTOR TO PATIENT, STEAL AUTO

Youths Yield to Plea of E. T. Senseney After Holdup at Traffic Signal.

When Dr. Eugene T. Senseney of 4555 Pershing avenue stopped his automobile for a traffic signal at Union and Delmar boulevards, at 4:15 p. m. yesterday, two youths jumped on the running board of the machine and with drawn revolvers ordered him out.

"Is this a holdup?" inquired the doctor.

"Yes, get out of there," one robber replied.

"Why don't you fellows be decent and let me make this sick call?" the physician pleaded as he stepped from his automobile.

"Where were you going?" asked the robber who had got into the driver's seat.

Dr. Senseney explained that he was on his way to visit a sick child at 5427 Chamberlain avenue, after which one of the robbers told him to get back into the machine. The youths drove to the Chamberlain avenue address, where they searched Dr. Senseney, taking his pocketbook containing \$12.

"You'll find your machine in ten minutes in front of Hotel Chase," one of the robbers said. The machine has not been recovered.

## KOSHER MARKET PROPRIETOR IS ACQUITTED IN COURT

He Was Charged With Violating State Law Regulating Sale and Advertising of Meat.

Harry Richman, proprietor of a kosher market at 1129 North Thirtieth street, today was acquitted of a charge of violating a state law regulating the sale and advertising of kosher and non-kosher meat in Judge Calvin Miller's Court of Criminal Correction.

The state contended that Richman failed to display a sign in his window, as required by law, that both kosher and non-kosher meats were on sale, and with failure to place distinguishing placards on the meats. Four members of a committee appointed to inspect his place testified that on June 4 last, they found a quarter calf in the defendant's market without the kosher stamp and dressed in a manner that indicated it was "traff" (non-kosher).

Richman denied dealing in any but kosher meats and said that he had sold the portion of the calf bearing the kosher stamp shortly before the committee called. His attorneys attempted to show that the prosecution was fostered by "schachtel" (butchers of kosher meat) from whom he refused to buy his meat.

## DOG FREED OF KILLING KITTEN

By the Associated Press. PHILADELPHIA, March 16.—"Teddy," a Belmont fox terrier, today was acquitted of having killed a kitten. Last week, his owner was accused of possessing a vicious dog and Police Magistrate Clinton decided to have the kitten's body exhumed to ascertain the cause of death. It had been contended by Albert D. Witt, the owner of "Teddy," that the kitten, belonging to a neighbor, had been killed by an automobile. "Character" witnesses were called at the first hearing and one testified the dog was vicious, while another gave testimony that the dog bore a good reputation.

The report of an agent of the Pennsylvania society to prevent cruelty to animals, presented to the Magistrate today showed that the autopsy revealed the kitten had been badly crushed, upholding the contention of "Teddy's" owner.

## FOUR OUSTED FROM UNIVERSITY

Expulsions at Oklahoma on Charges of Drinking and Gambling. NORMAN, Ok., March 15.—Four students of the University of Oklahoma have been expelled by President Buzzell on charges of drinking, gambling, immorality and making low grades. Six others were placed on probation.

The action brought to 11 the total of expelled students in the last two months. The name of only one of these has been announced. K. John Lyons was expelled following a sentence of 30 days in jail and a fine of \$10 for possession of liquor. In addition to the fight on craps shooting and gambling at bridge and poker, the president also announced that dimly-lighted student dance halls must be abolished.

Zilpha Carter Weds Alfred White. Special to the Post-Dispatch. NEW YORK, March 14.—Unknown to their friends in local literary circles, Miss Zilpha Carter, daughter of Mr. and Mrs. Albert Carter of Springfield, Mo., was married yesterday noon to Alfred Rutledge White, an editor of the New York World news service. The former Zilpha Carter studied at Drury College and is a short story writer. The bridegroom has contributed frequently to magazines and other publications and made a special study of Biblical literature at Columbia University.

Duke of York Has Influenza. Copyright 1926 by the New York Times and Publisher. LONDON, March 14.—The Duke of York, second son of King George and Queen Mary, is ill with influenza at the Hertfordshire home of his father-in-law, the Earl of Strathmore. The Duke went to Hertfordshire to bring his wife back to London from a visit to her father. She is remaining with him.

## WAR MEMORIAL FOR SEDALIA

\$3000 Subscribed for Bronze Statue on Square.

SEDALIA, Mo., March 16.—Three thousand dollars has been raised for a memorial to be erected under auspices of the American Legion on the courthouse square to the Pettis County boys in the World War. It will be a bronze statue of a doughboy and on the sides will be the names of those who died from wounds or from disease in the service.

The memorial will be dedicated on Decoration day, May 30, and near it will be placed a large howitzer, captured from the Germans during the conflict. The S. and S. M. Club, successor to My America League, a patriotic body here during the war, made a donation of \$900 toward the memorial.

Spring is the time when your system must be clear and well regulated. Use

## MORAL TURPITUDE CLAUSE USED TO BAR OTHER WOMEN Passport Visa Denied in England, Despite U. S. Court Ruling in Catholic Case.

LONDON, March 16.—Notwithstanding the recent admission to the United States of Vera, Countess Cathcart, the "moral turpitude" clause in the American immigration law is being invoked here against British women who have been the guilty parties in divorce actions and who wish to go to America.

A few days ago an American passport visa was refused one such woman, who is engaged to marry an American. Her fiancé had desired to return to the United States immediately after the wedding. It is understood that if the woman had merely wished to make a temporary visit to the United States her application might have been granted.

## After one treatment

you can see results

One treatment of Fayre, the dermatologically approved skin purge, is all that is necessary to work a wonderful change in sallow, muddy complexions.

Fayre acts by removing the lifeless oil from the pores of the skin. In a few minutes it rid's the skin of all impurities, banishes blemishes and restores the youthful radiance and natural bloom to the complexion.

Have you tried it? Fayre can be used in five minutes. Applied three times a week, it will keep your skin soft and clear. At your drugstore—\$1.00 for the full-size jar.

## WEIGHT INSPECTION FEES TAKEN LEGALLY

Supreme Court Upholds Ex-State Grain and Warehouse Commissioner.

By the Associated Press.  
JEFFERSON CITY, March 16.—James T. Bradshaw of Kansas City, former State Grain and Warehouse Commissioner, will not have to refund \$13,933 to the State as fees and funds alleged by the State to have been collected by Bradshaw. His deputies and helpers, and illegally retained.

The State Supreme Court en banc has affirmed judgment of the Cole County Circuit Court here in deciding the case in Bradshaw's favor.

The case was instituted by the State in October, 1921, to recover from Bradshaw, and W. T. Kemper and T. J. Pendergast, also of Kansas City, and Sam B. Cook, Jefferson City, sureties on Bradshaw's \$20,000 bond, a total of \$13,933. Bradshaw was appointed April 29, 1919.

Bradshaw maintained that the money sought by the State was retained because it was work performed on Sundays and after regular hours, and that about \$12,000 of it was collected by him and his deputies, unofficially, in cities of less than 75,000 population. Bradshaw contended that under the law "no official weighings and inspections had to be made in places of less than 75,000."

The opinion by the Supreme Court today said that "warehousemen in cities of less than 75,000 population wanted the benefits of authoritative inspection, for which the law made no provision. Therefore, they were willing to pay for inspecting and weighing their grain and hay. This (Bradshaw) did, making the usual charges, and changing his official blanks so as to show the certifications were unofficial."

Luck was with the city, when it selected the site of the new courthouse, near Market street and adjoining the Twelfth boulevard plaza. Engineers have reported that it will be necessary to bore only 55 feet to a rock foundation. At the Bell Telephone Building site, two blocks distant, the rock was 75 feet under the surface, and the same depth had been figured on for the courthouse foundations.

President Kinsey of the Board of Public Service reported this development today and said it would save money in the construction of foundations for the \$3,773,500 buildings. He could not estimate how great the saving would be. The board approved his recommendation for an ordinance to not the Plaza Commission, Inc. \$354,200 a month for the architectural work on the building until 10 per cent of the cost shall have been reached. The commission comprises the architects handling the work, who plan completion of the 21-story structure by Sept. 15, 1928.

## ALDERMANIC COMMITTEE CALLS 8 DEPUTY MARSHALS All Deny Being Assisted to Jobs and Seven Say They Voted for Miller.

The Legislative Committee of the Board of Aldermen today questioned eight Deputy Marshals appointed recently by City Marshal Duffy. In an effort to ascertain why Duffy dismissed former employees and selected the new ones, all witnesses testified that they passed the Efficiency Board examination without coaching or advice from anyone and each insisted no "pull" was used in getting the jobs which pay \$115 a month. All but one testified he voted for Mayor Miller at the last primary, and the eighth refused to state who he supported.

One Deputy, Charles Kratky, an uncle of Robert Kratky, Mayor Miller's campaign manager, said his nephew had nothing to do with his getting the appointment. Another man admitted he had been arrested twice for violating traffic rules.

## CONVICT FREE 2 HOURS, WEDS Girl Waited Two Years for Man Who Killed Policeman.

Special to the Post-Dispatch.  
KANSAS CITY, March 16.—A prisoner, who was released this morning from the Kansas State penitentiary, married in Kansas City two hours after the young woman who had waited for him while he served his two-year sentence for killing a Wichita policeman. The ceremony was performed by Justice Frank Benanti.

When the prison gates swung open this morning at Lansing transforming No. 8600 into Ray H. Poor of Covington, Ky., the first husband of the bride-to-be, Miss Averill Gay, of Wichita, Kan., was awaiting at the Hotel Baltimore. Poor, 26 years old, met Miss Gay while he was in the Wichita jail.

Haven for Confirmed Bachelors.  
By the Associated Press.  
BOISE, Idaho, March 16.—Owyhee County, Boise, Idaho, affords a haven for confirmed bachelors. In 4 years only two marriage licenses have been recorded in the county, which has a population of 4495. Its area of 6155 square miles makes it larger than Rhode Island, Delaware and Connecticut.

## WOMEN IN GEORGIA MAY TESTIFY AGAINST HUSBANDS

By the Associated Press.  
ATLANTA, Ga., March 16.—Women of Georgia may go into court and give testimony against their husbands, although the latter have not the same right with regard to their wives.

This situation came about through hurried legislation to meet any conditions created by the nineteenth amendment and has not been corrected.

Another State law exists which sets it a bit apart from other states. In charging a jury in a criminal trial, the presiding Judge is required to inform the jury that it may elect to believe the unsupported testimony of the defendant in preference to any and all other evidence given at the trial.

Atlanta recently created a division of the Jim Crow law when it passed an ordinance forbidding white women and children to patronize Negro barber shops.

## ADVERTISEMENT Sure Way To Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

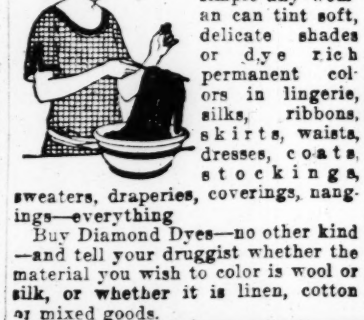

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffier, lustrous, glossy, soft and look and feel a hundred times better.

You can get liquid arvon at any drug store and four ounces is all you will need. This simple remedy never fails.

## ADVERTISEMENT "DIAMOND DYE" ANY GARMENT, DRAPERY Just Dip in Cold Water to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything.

Buy Diamond Dye—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

## Here's new dental way to Gums like Coral

Also lightens cloudy  
teeth remarkably

Accept, please, full 10-day tube of this scientifically-proved, film-removing dentifrice, urged by world's dental authorities. Note the great difference in your teeth and gums.

GLORIOUSLY clear teeth, gums like coral to contrast them! Add their attractiveness to your smile. Do this for social reasons, for business reasons.

Modern dental science now proves teeth seldom are naturally "off color"—simply clouded with a film coat that ordinary dentifrices do not clear off successfully. Clouded teeth now are given sparkling whiteness, and one's whole appearance thus often changed.

Accept, please, a full 10-day tube of this new way. A way scores of motion pictures' noted stars use to whiten teeth before going on a scene. A way leading dentists of the world now are widely urging.

Just a film dulling them and inviting gum troubles

Dental science now traces scores of tooth and gum troubles to a germ-laden film that forms on teeth. Run your tongue across your teeth and you will feel it—a slippery, viscous coating.

That film absorbs discolorations from food,

smoking, etc. And that is why your teeth look "off color," dingy and unattractive.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack. Germs by the millions breed in it. And they, with tartar, are a chief cause of pyorrhea and decay.

Old ways won't clear it off

Ordinary dentifrices and cleansing won't fight film successfully. Feel for it now with your tongue. Note how your present cleansing method is failing in its duty.

Now new methods are being used. A dentifrice called Pepsodent—different in formula, action and effect from any other known.

Largely on dental advice, the world has turned to this method.

Clears film off—Firms the Gums  
It accomplishes two important things at once: Removes that film, then firms the gums.

A few days' use will prove its power beyond all doubt. Send the coupon. Clip it now before you forget and mail at once.

FREE Mail Coupon for 10-Day Tube of THE PEPSODENT COMPANY Sec. A-2099, 1104 S. Wabash Ave. Chicago, Ill., U. S. A.

## The Call of the Children of St. Louis

THERE'S a call to you from the 100,000 school children in St. Louis to vote to continue the present 85-cent school tax rate. These youngsters will read your answer in the election returns of next Tuesday. A favorable response means much to their education and later success in life.

The special election March 23 (next Tuesday) will be held to vote on continuing the present 85-cent rate. It is not an increase in taxes. You have been paying the 85-cent school tax for the last four years.

But—under a State law we are required to vote each four years to maintain the present level. Unless a majority of the voters approve the 85-cent rate the school tax automatically goes back to the old 60-cent rate, greatly reducing the school revenue. Our schools cannot be efficiently operated on less money.

A vote in favor of the 85-cent rate is a vote to continue the present school advantages for the children. It will not cost you an extra penny. It will enable the schools to keep up their progress of recent years—without interruption.

We are proud of the St. Louis school system—which is among the best in the nation. If we reduce the school revenue and lower St. Louis school standards, it would be a step backward. We must not backslide. We must constantly push forward—for the sake of the children.

## DELANEY STOPS M'TIGUE AND SIGNS TO MEET BERLENBACH

Referee Haley  
Halts Go With  
Mike Helpless

Bridgeport Slugger Will Get  
Chance to Win Light-Heavy  
Title, July 10.

PENNANT  
TIMBER

By Herman Wicke

## BROOKLYN ROBINS.

NEW YORK, March 16.—Al-  
most three years to a day after  
winning the world's light-heavy-  
weight boxing championship, Mike  
McTigue, one of the greatest de-  
fensive fighters in the ring today,  
has suffered his first knockout.

His conqueror is one famous for  
knockout ability, Jack Delaney, of  
Bridgeport, Conn., who has flat-  
tened two of the present world  
champions, yet fails to hold a title.  
The chance for a crown will come  
again on July 10, with  
the present light-heavyweight  
title-holder, Jack Berlenbach.  
Delaney knocked out Berlenbach  
before Oom Paul won the title  
from McTigue by decision last  
summer. He knocked out Tiger  
Forsythe of Atlanta a year ago and  
today the Negro is middleweight  
champion by virtue of a decision  
over Harry Greb only recently.

McTigue did not take the count,  
but he was so battered in the  
fourth round that the referee  
stopped the carnage. It was a  
technical knockout. McTigue had  
gone to the floor and regained his  
feet only with the greatest effort.  
A right to the head sent Mc-  
Tigue down for the count of eight.  
Then he went down for the count  
of nine. He was helpless on the  
floor and the referee was stopping  
the fight when the gong sounded.

Hornsby Tackles Task of  
Picking 11 Hurlers From  
The 18 Men in Texas Camp

Haines, Rhem, Sherdel, Mails and Keen First String With Hunt-  
zinger, Dyer, Johnson and Reinhardt as Reserves  
—Struggle for Other Place Begins.

By William J. McGooagan.

Of the Post-Dispatch Sport Staff.

SAN ANTONIO, Tex., March 16.—Approximately half of the  
Cardinals' preparation for the 1926 National League pennant scramble  
is finished. Manager Hornsby is now pointing his men for the  
two games with the Chicago White Sox to be played at Dallas March  
29 and 30. These two contests, the manager believes, will give him  
a better insight into the condition of his men than he has been able  
to obtain watching them run over these Texas League outfits.

Hornsby said today that he was  
well satisfied with the progress  
made so far. Each objective has  
been taken with a minimum of ef-  
fort. The men are all in good  
physical condition, there are few  
complaints, their morale and be-  
havior are all that could be de-  
sired.

Yet there have been no new  
players uncovered who could be  
expected to transform the team into a  
favorite for the championship.  
Hornsby, it appears, will go to  
the post with virtually the same  
club, so far as names go, that fin-  
ished in fourth place last year.

Pitching Staff Uncertain.  
The pitching staff is still an  
uncertain quantity. True the hur-  
lers have been able to defeat the  
Texas Leaguers with ease, but  
Waco, Houston and San Antonio  
are not in the National League.

Hornsby has 18 pitchers from  
whom to choose and the task is  
not one to be taken lightly. The  
chief difficulty lies in the fact that  
there are so many men of nearly  
equal ability. There are three or  
four youngsters who are not be-  
ing seriously considered for the  
club this year, but the rest are all  
men who require minute inspec-  
tion.

None is outstanding either, un-  
less Sherdel is so regarded because  
of his 15 victories last year.

Another rub comes from the fact  
that two of the most promising  
youngsters, Clough and Hallahan,  
cannot be sent out on option again  
this year, as the Cardinals have  
already had them out for two sea-  
sons. So if they are released it  
will be possible for any of the  
other major league clubs to bid for them.

The Probable Selections.  
Just at the moment, Haines,  
Rhem, Sherdel, Mails and Keen  
are looked upon as the logical men  
to form the regular staff, with  
Huntzinger, Dyer, Johnson, Soth-  
oren and Reinhardt in the first line  
of reserves.

As it is planned to carry eleven  
pitchers, Herman Bell, Johnny Stur-  
art, Bill Hallahan and Ed Clough  
will have to fight it out for the  
remaining berth, if the above line-  
up is adopted. Of course, if Hall-  
ahan keeps up the pace he has

Cleveland Tenpin

Rhor Takes Lead in A. B. C.  
Singles—St. Louis Pair  
Gets 1173.

Special to the Post-Dispatch.  
TOLEDO, O., March 16.—H.  
Behnen and G. Baker of St. Louis,  
turning in games of 356, 359 and  
425, compiled a total of 1173 in the  
doubles event of the American  
Bowling Congress tourney here  
late yesterday. The score will  
come in for a slice of the prize  
money.

Yesterday's schedule was fea-  
tured with high counts. Kansas  
City, Chicago and Cleveland  
bowlers furnishing most of the  
fireworks. Willie Mathies, who  
helped place his North Center alley  
five-in the lead in the five-man  
event, with a 685 total, continued  
his assault of the napes with  
counts of 617 and 640 in the minor  
events. The Chicago bowler took  
the lead in the all-events with an  
aggregate total of 1643.

John Rhor of Cleveland bet-  
tered the score which won the in-  
dividual championship at Buffalo  
last year by eight pins, when he  
totalled 714 count with games of  
224, 225 and 265.

H. Paehke and W. Daglow put  
Cleveland in the runner-up posi-  
tion in the doubles when they to-  
talled 1264.

## Golf "Pro" Found Dead.

By the Associated Press.  
CHICAGO, March 16.—James  
Hunter, golf professional, and a  
brother of Willie Hunter, well-  
known Chicago golf pro, was found  
dead in his room in a hotel here  
yesterday. Mystery surrounds  
the cause of death and a post mor-  
tem examination was ordered. Hun-  
ter, 46, came to Chicago from Mon-  
roe, Wis. A widow and three chil-  
dren survive.

Bear Athletes  
To Run in A.A.U.  
Coliseum Meet

Athletes From Washington U.  
to Compete in Indoor Car-  
nival Saturday Night.

Washington University's entries  
in the Western Amateur Athletic  
Union indoor championships at the  
Coliseum Saturday night were an-  
nounced this morning, with Pike-  
way athletes entered in the open  
events.

Moloney, Schroer, Harding and  
Threlkeld will run in the 50-yard  
dash; Carroll, Harding, Warnock  
and Benz in the 200-yard dash;  
Capt. Willman and Benz in the  
400-yard dash; Cox, Grossman and  
Meyer in the mile and four sprints  
in the 1200-yard relay, each  
man to run 300 yards.

A number of freshmen also will  
compete in the meet, unattached.

EX-BILLIKENS DEFEATED  
BY EX-BEAR BASKET TEAM

The Langan-Taylor five defeated  
the St. Joseph quintet last night at  
the K. of C. hall in East St. Louis  
in an independent tournament con-  
test, 24 to 16. Spectators, wonder-  
ing at the stellar brand of basket-  
ball displayed, found out later that  
the St. Joseph's were the recently  
graduated St. Louis University  
squad minus the Bradburns and  
plus Hurd, and the Langan-Taylor  
were a group of Washington Uni-  
versity athletes and alumni.

It was a Bear victory, though un-  
official. Cox and Seago starred for  
the winners. Niess, a former Bear  
and member of the Coliseum A. C.  
squad, played a forward for the  
erstwhile Billikens.

The lineups:  
ST. JOSEPH. LANGAN-TAYLOR.  
Hurd, Seago, Niess, Cox, Bradburn,  
R. G. Grossman, Meyer, Hurd,  
Langan-Taylor.

Pittsburg Beats Ottawa.  
By the Associated Press.  
OTTAWA, March 16.—Pittsburg  
won third place in the National  
Hockey League last night by de-  
feating the Ottawa Senators, 2 to 0.

Bethlehem Adds  
European Star  
To Its Lineup

Strengthens for National Soc-  
cer Final but St. Louis  
Stands Pat.

By Dent McSkimming.

While the management of the  
team which represents St. Louis  
in the national soccer cham-  
pionship series declines to take steps  
to strengthen the team for the  
impending final, the officials of  
the Bethlehem Steel Co. team,  
probable Eastern finalists, have  
reached across the Atlantic to  
pluck the outstanding center for-  
ward of continental soccer.

G. Visser, the sensational 21-  
year-old Hollander, joined the  
Bethlehem squad about three  
weeks ago and although he did not  
participate in last Sunday's cup  
game against New York, he will  
probably be used at inside left  
next Sunday in the Eastern final  
with J. and P. Coats.

"As Dangerous as Stark."  
"Visser is very fast and has a  
strong shot in either foot," writes  
Jim Easton, manager of the Beth-  
lehem team. "As soon as he  
swings into our style of play he  
will prove as dangerous as Archie  
Stark, the leading goal scorer of  
the American League."

Visser is 21 years old, weighs  
173 pounds and is 5 feet 9½ inches  
tall. Four years ago he played  
his first major football as an out-  
side right on one of the strongest  
clubs in Holland. Two years ago  
he played his first international  
game at right inside and he was  
so impressive that he was chosen  
on six occasions for international  
games, which means that during  
that period he was regarded as the  
best man in all Holland at his po-  
sition. That he is an all-around  
player is proved by the fact that  
he played one game at inside  
right, one at left halfback and five  
at inside left.

Blades is assured of the left field  
berth and Hafez seems to be a fix-  
ture in right field. Certainly any  
player who can hit a ball as hard  
as chick and throw so well belongs  
on a major league team.

When Hornsby speaks of the  
regular lineup he always includes  
Taylor Douthett as the center field-  
er. That leaves Mueller, Holm and  
Jack Smith to fight it out for the  
two reserve berths although Wal-  
ter Roettger has attracted some at-  
tention during the short time he  
has been in training.

WALTER KAMMANN AND  
CUNNINGHAM LOSE IN  
HANDBALL TOURNAMENT

By the Associated Press.  
ST. PAUL, Minn., March 16.—  
William Rant of Los Angeles won  
his second round match in the Na-  
tional handball tournament today,  
defeating Mike Cunningham of St.  
Louis, 21-5, 21-5.

George Quam, one-armed star of  
the Minneapolis Athletic Club,  
came through the second round  
with a 21-5, 21-5 victory over  
Walter Kammann of St. Louis.  
G. A. Nelson of Baltimore won  
from another Nelson—L. A. of  
Chicago—21-12, 11-21, 21-12  
in the second round.

Dr. Mervyn Fredenburg of San  
Francisco, showing great versatil-  
ity, defeated Bud Duncan, St.  
Paul's second ranking star, 21-17,  
21-11.

33 Boxers Enter  
A. A. U. Tourney

Oklahoma Aggie Star Will  
Compete for Lightweight  
Laurels.

The elimination rounds of the  
Western A. A. U. boxing cham-  
pionship, to be held Thursday night  
at the South Broadway A. C., will  
provide at least 20 bouts. The  
finals will be held Friday night.

Bob Probst, chairman of the dis-  
trict registration committee, re-  
ported a total of 33 entries on  
hand this morning with prospects  
of at least ten more before the  
entry books close tonight.

Loren Fruit, a former Oklahoma  
State champion, is the only out-of-  
town ringster who has entered the  
district meet. He is a student at  
the Oklahoma Agricultural Col-  
lege. He is scheduled to compete  
in the lightweight class along with  
such local favorites as Werner  
Kranze and Sam Liffon.

Following is a complete list of the  
entries received to date:

112-pound class—Joe Glinouly, South  
Broadway A. C.; Tony Piroune, Sherman  
Park C. C.; Edie O'Neill, Business Men's  
A. C.; Sammy Schenmann, South Broadway  
A. C.

118-pound class—Nick Charwick, St.

Louis Rowing Club, Ray Palmer, Business  
Men's A. C.; Bruno Klaesner, South Broad-  
way A. C.

126-pound class—Eddie Burke, Sherman  
Park C. C.; Tom Derby and Charles Flor-  
ence, Tower A. C.; Frank Mers, Frank Sims  
and Arthur Edlerstrand, Business Men's  
A. C.; Billy Neu, Sherman Park C. C.; Les-  
ter Greenberg and Morris Greenberg, Na-  
tional A. A.

135-pound class—Sam Liffon, Werner  
Kranze, Charles Zone and Herbert Kranze,  
Sherman Park C. C.; Henry Hopp, George  
McNulty and Arnold Bender, Business  
Men's A. C.; Loren Fruit, Stillwater, Ok.

147-pound class—Emie Goldstein,  
Chicago; Wendell Tate, Kansas and Larry

Other Sport on  
Page 30

O'Neill, South Broadway A. C.; William  
Jackson, Tower A. C.  
160-pound class—Frank Power, Busi-  
ness Men's A. C.; Steve Mame, South Broad-  
way A. C.  
175-pound class—Jerry Hoffman, Sher-  
man Park C. C.  
Heavyweight class—Dave Knost, Sher-  
man Park C. C.

# TOBIN, FORMER BROWN, WINS RIGHT FIELD BERTH WITH SENATORS

## Harris to Play Third Base for Team in Pinch

If Bluege Is Injured, Stewart, From Birmingham, Will Replace Manager at Second.

TAMPA, Fla., March 16.—The same team, triumphing over its American League rivals for the past two seasons, will be Washington's entry in the big league campaign opening next month.

Here and there new faces may be seen. Johnny Tobin in the outfield and Joe Bush in the box, for instance, but Bucky Harris is coming back to his wonderful machine on which he has won three straight years. He is ready to be shown to the contrary.

Tobin, former Brownie, has clinched the regular job in right field, crowding McNeely and Joe Harris to the bench. The latter is to be a pinch hitter, unless compelled to replace Judge at first base, something he does right skillfully.

The Yankees boasted of a five-star pitching staff. The Griffins get them two better with a seven-star staff, consisting of Johnson, Coveleskie, Bush, Ruether, Ogden, Ferguson and Marberry. Behind this screen of veterans are Lyle, from August's Thomas, from Nashville, and Kelley, from New Orleans.

Old Infield to Start.

The same infield will start the season, composed of Judge, Bucky Harris, Peckinpaugh and Bluege. Joe Harris suits for Judge. Stuffy Stewart from Birmingham can replace the manager. Bucky Meyer from New Orleans, stands ready to play short if anything happens to Peckinpaugh. Bucky Harris will replace Bluege if the latter is injured, putting Stewart on second base.

As extra outfielders, pinchhitters and pinch runners the champions have Earl McNeely, whose hit decided the world's series in 1924 and Maurice Archdeacon considered the fastest player in the game.

Light hitting has forced McNeely to the bench, but his speed and sliding keeps him with the team. Archdeacon was drafted from Baltimore.

## TRAINING CAMP NOTES

McGraw Predicts Pennant for Giants—Rhyme and McInnis of Pirates Injured.

By the Associated Press. NEW YORK, March 15.—Defeat by the Braves at St. Petersburg this morning has given the Yankees less concern than the effects of the use of resin, shown by Benton of the Bostonians. After pitching three balls to Bert, Benton rubbed his hands on the little mesh bag now legalized in the National League and then threw across three strikes.

After the Giants' regulars at Saratoga lost to the rookies, 19 to 5, Manager McGraw indicated that it was his opinion that barring injury, the Giants would win the pennant.

Red Sox Harriers on Shelf.

By the Associated Press. BOSTON, March 15.—So many Red Sox pitchers are laid up that Manager Lee Foul has been obliged to show things down. He has had to play a game between two Sox teams at New Orleans yesterday but found it inadvisable. Huffing and winning have kept some Sox players from being sent to the States.

To Time Speed Demons.

By the Associated Press. WASHINGTON, March 15.—A speed demon has been a ball game and Manager Harris of the Senators at the Tampa camp wants to know what time his men can make on the paces before the season opens.

Time and will be used whenever speed is needed.

Showing changes coming with the years, Muddy Ruel will not be as frequently behind bat this year as for the past two seasons. Benny Tate, a bench warmer for two years, with a hitting average of .447 for 1925, has crowded into the picture, passing the aging Hank Severid in his rush to the front.

Tate Is Dangerous Batter.

Tate is a southpaw batsman, who is dangerous and has an excellent pegging arm.

The Washington team, its regulars predominating, should play winning baseball at all times. If the creaking old timers don't fall apart the team is sure to be a contender from start to finish.

Confidence fairly exudes everywhere. The few youngsters have imbibed part of this confidence and the champions are sure to be tough customers. "We look for opposition from seven clubs in this league," says Bucky Harris.

## 44 Quintets to Play in W. U. Basket Tourney

Centralia, Champions Last Year Enters—First Games Thursday.

Forty-four teams will compete for the title in the Mississippi Valley Interscholastic Basketball tournament on the Washington University courts Thursday, Friday and Saturday. The entry list, which closed last night, shows an increase of eight teams over last year's total, notwithstanding the fact that the present tournament officials invited only schools supported by public taxation.

Among the last group of schools to signify an intention to participate in this sixth annual meet is Centralia, Ill., last year's champion.

Webster Groves', undefeated five is the strongest contender. Webster won one leg on the cup in the first tournament five years ago.

Central Five Practices.

The Central High School five practiced on the Parkway floor yesterday afternoon. The Central players, victors in the St. Louis Interscholastic League with eight victories and no defeats, have a record of 31 victories out of 35 starts for the season. One of the defeats, however, was at the hands of Webster, 33-11.

The entries include Eadsboro, Centralia, Clinton, Cleveland, Crystal City, De Soto, Duquoin, East St. Louis, Edwardsville, Effingham, Elvins, Granite City, Hurst, Jacksonville, Kirkwood, Litchfield, Louisville, Madison, Maplewood, Marion, Mt. Olive, Mt. Vernon, Murphysboro, Osage, O'Fallon, Pinckneyville, Sikeston, Springfield, Mo., Staunton, University City, Vandalia, Vandalia, Waverly, Webster Groves, Wellston, Whitehall and Witt.

The Washington University basketball varsity will aid a committee of five in the general conduct of the tourney. The committee will consist of Russell Seago, Wiley Cox, Ted Winkler, Carl Stanford and Lorraine Eckert, students, and Dr. H. G. Lund, Jerome Meyers, Ruff, Martin, F. Evans Glasgow and Herb Camp, alumni.

The manager of the tournament is A. E. Elders and the officials will be Charles Reber, Carl O. Kamp, J. E. Davis and D. S. White.

## Interstate Pin Tourney in May

Missouri State Association to Be Organized at Meeting to Be Held During Event.

Announcement was made today by D. J. Sweeney, manager of the Southern Recreation boxing alliance, that the Interstate tournament, with events in the five-man, doubles and singles would be held at the establishment, starting probably May 1. Entry blanks will be issued in a short time. The entry fee will be \$2.00 a man for each event.

Boxers from Missouri will be invited to compete May 8 and 9. On one of these two days, a meeting will be held to complete the organization of the Missouri State Association. Missouri is one of the few States which has no organization of this kind.

At the time officers will be elected and a city for the holding of the first annual tournament will be decided upon. Local officials are of the opinion that if they wait until next fall, nothing will come of the State organization and for that reason a meeting will be held at the close of the present campaign.

## WEBSTER BEATS RITENOUR IN FINAL COUNTY GAME

Yesterday swamped Ritenour, 35 to 2, yesterday in the closing game of the St. Louis County High School League at Webster. The contest has little more than a workout for the championship Webster five.

Eight county teams will compete in the tournament at Washington University this week. They are Webster, Clayton, Wellston, University City, Kirkwood, Normandy, Maplewood and Ritenour.

Final standings:

Team	Won	Lost	Points
Webster	8	0	1,000
Clayton	7	1	700
Wellston	6	2	500
Kirkwood	4	4	400
University City	3	5	300
Normandy	2	6	200
Maplewood	1	7	100
Ritenour	0	8	0

## BIG TEN HEADS MAKE AN APPEAL TO A. A. U.

By the Associated Press. CHICAGO, March 15.—Athletic directors of the Western Conference last night launched a new offensive to protect college athletes from professionalism and A. A. U. competition until after they have finished their intercollegiate career.

The directors in a letter to Murray Hulbert of New York, national president of the A. A. U., requested that the A. A. U. follow the example set by professional football and forbid affiliated clubs from signing "Big Ten" athletes as members of clubs under its jurisdiction.

## TILDEN WINS EASILY IN FIRST ROUND OF FLORIDA NET TOURNAMENT

JACKSONVILLE, Fla., March 15.—William T. Tilden II, national champion, came through the first two rounds of the Southeastern tennis tournament here yesterday with ease. He won his first round match from Frank Harris of Fort Myers, Fla., by default and dropped but two games to Georgia Venable of Jacksonville in his second match, winning 6-2, 6-0.

Tilden and A. H. Chapin Jr. of Springfield, Mass., broke even in an exhibition match, the feature of the day. Tilden took the first set from Chapin, 6-4, and lost the second, 7-5, stroking erratically and hindered by a cross-current wind. Other results were: F. O. Rogers, Chicago, beat O. P. Chaffie of Providence, 6-3, 6-2, 6-2; Marcel Rainville of Canada lost to George O'Connell of Chicago, 7-5, 6-3, 6-4; T. Harada, Japanese champion, defeated Ray Marsh, Jacksonville, by default; H. J. Dykes, Jacksonville, defeated J. M. Novell, Jacksonville, 6-2, 4-3; Jerry Lang, New York, defeated S. H. Berg, Jacksonville, 6-0, 6-2.

## Perfetti Beats Shaw.

By the Associated Press. FLORIDA, Ill., March 15.—Lex Perfetti of New York today with Billy Shaw of Toronto in their 10-round battle here last night and easily outpointed him in every round. Shaw was a willing mixer, but the Eastern boy was far too clever for him.

## 350 Invited to Indoor Events

A. A. U. Will Hold Track and Field Meet at Coliseum Saturday.

Three hundred fifty invitations have been sent out for the Western A. A. U. indoor track meet at the Coliseum next Saturday. The entry list will close Thursday.

A group of Washington University athletes will compete, in addition to teams from McKendree College, of Lebanon (Ill.); Lincoln Institute, of Jefferson City; Concordia Seminary, Bend (Ill.); Hillsboro (Ill.); High; Western Military Academy, of Alton; Pine Street Y. M. C. A., Sumner High and most of the county and city high schools.

Tickets at 25 and 50 cents are on sale at Leacock's, Lowe &

## 70 CORNHUSKERS OUT FOR SPRING PRACTICE

By the Associated Press. LINCOLN, Neb., March 15.—Seventy candidates for the 1926 eleven of the University of Nebraska reported yesterday to Coach E. E. Bear for the first spring football practice. Coach Bear has outlined a strenuous spring program for his Cornhuskers, which will include a series of practice games. Charley Black, a new member of the varsity coaching staff, will assist in the spring gridiron work.

## Reiselt Wins Two Games

By the Associated Press. PHILADELPHIA, March 15.—Reiselt yesterday took both games from Augie Kleckhefer in their National Three-Cushion League play. The afternoon game was 50 to 40 in 25 innings, and the evening 50 to 42 in 25 innings. Reiselt had a high run of eight and Kleckhefer of six.

CHICAGO, March 15.—Gus Coles and Allen Hall split even yesterday in their National Three-Cushion League games here. Coles was victorious in the afternoon 50 to 40, in 25 innings, and the evening 50 to 42 in 25 innings. Coles had a high run of seven and Hall of five.

# Gasoline and Coal

Twelve years ago no one could have predicted accurately the present price of staple commodities. Who could have foretold in 1913, when the average price of anthracite coal was \$8 per ton, that it would advance to \$18.13 in 1925?

Yet that is exactly what happened. No less an authority than the United States Department of Labor furnishes the statistics.

According to the report of this department, on Jan. 15, 1913, the average retail price of anthracite stove coal per ton of 2000 pounds in Chicago was \$8.00, and on Nov. 15, 1925, (the latest date for which statistics have been compiled) it was \$18.13 per ton.

What about gasoline prices?

On Jan. 15, 1913, the Chicago tank wagon price of Standard Oil Company (Indiana) gasoline was \$.145 per gallon. A ton of anthracite coal on that day would have bought 55.17 gallons of gasoline.

On Nov. 15, 1925, the Chicago tank wagon price of Standard Oil Company (Indiana) gasoline was \$.16 per gallon. A ton of anthracite coal on that day would have bought 113.31 gallons of gasoline—105% more than in 1913.

In terms of percentage, the price of anthracite coal increased 126% in twelve years; the price of gasoline only 10.3%.

These figures are not intended to show that the price of anthracite coal is high but to emphasize the fact that the price of gasoline is low.

The success of the Standard Oil Company (Indiana) in holding down the price of gasoline is the more remarkable when it is considered that the cost of factors entering into the manufacture of gasoline have advanced greatly—some important items as much as 137%.

How then you ask has this been accomplished?

In a word, by advanced refining methods growing out of tremendous investments of time and money in research. The benefits accruing have been passed on to the consumer of gasoline.

The Standard Oil Company (Indiana) is proud of its record; the management is proud of the organization, which has enabled it to achieve such a record.

Everyone of the 29,000 employees is imbued with but a single purpose—to do their part toward furnishing you with an unfailing supply of gasoline and other petroleum products when and where you want them at the most reasonable price possible.

With such a spirit of enthusiasm to rely upon, the management faces the future with confidence.

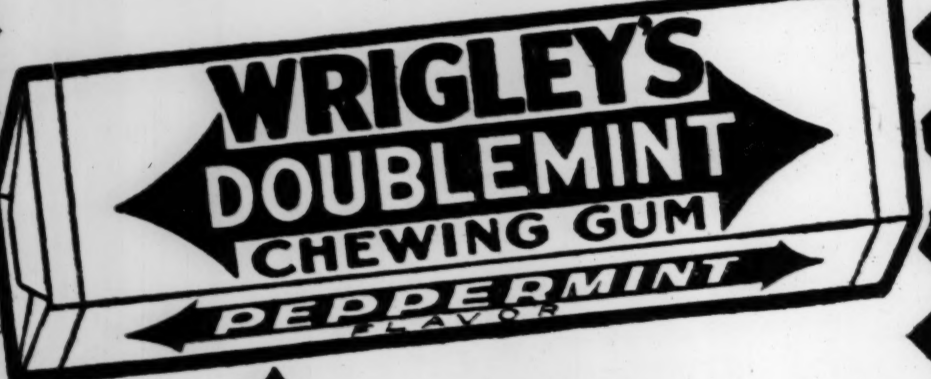

No one can foretell what new problems may arise. There are many hazards and risks in the oil industry. No one can accurately predict what the price of gasoline will be.

But one prophecy can be made with certainty. The Standard Oil Company (Indiana) will continue to supply gasoline at a price which will reflect only the cost of crude oil, manufacturing, and distribution, plus a small and reasonable profit.

The Standard Oil Company (Indiana) will continue to serve you with all the skill at its command, feeling confident of your appreciation.

## NEW YORK BOND MARKET

Foreign Exchange, BROWN SHOE IS TRADE FEATURE ON EXCHANGE, ST. LOUIS STOCKS, NEW YORK CURB (COMPLETE), In Financial Field, BETTER TONE ON CURB BUT BUSINESS SMALLER

NEW YORK, March 16.—Following is a list of sales, highest, lowest closing and previous closing prices of securities traded in the New York Curb Exchange today, sales of stocks being in 100-share lots (00 omitted) while bond sales are in \$1000 lots (000 omitted).

Table with multiple columns: Security, Sales, High, Low, Close, Prev. Close. Includes sections for DOMESTIC BONDS, MISCELLANEOUS BONDS, MINING, and FOREIGN BONDS.

ST. LOUIS STOCK EXCHANGE, March 16.—Brown shoe common was a feature on the local market today, selling on a higher basis. A decline of 3 points on sales of 150 shares marked the afternoon session. Missouri Portland was also lower. Consolidated Lead was unchanged. A Little Elly-Walker sold better.

Prices were mainly unchanged to higher in the opening trades in the morning. Besides the advance in Brown Shoe a Little Walke brought better price and Hydraulic Brick common was unchanged. Later Walke sold at unchanged price. Huttig was lower. National Candy common was unchanged. Consolidated Lead sold at 26 3/4.

Personal and Business Notes. Six, Bser & Fuller has been awarded the contract for furnishing the Commodore Perry Hotel, being erected in Toledo, O. The contract will involve about \$500,000. Carpets, linens and furniture being the leading items. The structure which is expected to be completed in January, 1927, will be 17 stories, with 200 rooms in the first two floors.

Walter B. Remley has been appointed agricultural agent for the Burlington lines east of the Missouri River. His headquarters will be in St. Louis.

Leonard H. Kinnar, president of the Bell Telephone Co. of Pennsylvania, has been elected a director of the General Asphalt Co., to succeed the late William B. Kurtz.

Lead Zinc and Copper. Lead was reported quiet in St. Louis today at \$2.25 per 100 pounds. Zinc also quiet at \$2.25 per 100 pounds.

NEW YORK, March 16.—Copper quiet, with the market for the future 14 1/2 to 15 1/2. Silver quiet, with the market for the future 50 1/2 to 51 1/2. Gold quiet, with the market for the future 133 1/2 to 134 1/2.

NEW YORK, March 16.—Cotton quiet, with the market for the future 12 1/2 to 13 1/2. Sugar quiet, with the market for the future 11 1/2 to 12 1/2. Wheat quiet, with the market for the future 1 1/2 to 1 3/4.

NEW YORK, March 16.—Closing prices of various commodities: Coffee, 11 1/2; Tea, 12 1/2; Rice, 13 1/2; Beans, 14 1/2; Corn, 15 1/2; Soybeans, 16 1/2; Pork, 17 1/2; Lard, 18 1/2; Butter, 19 1/2; Eggs, 20 1/2; Hides, 21 1/2; Wool, 22 1/2; Tallow, 23 1/2; Oil, 24 1/2; Flour, 25 1/2; Sugar, 26 1/2; Coffee, 27 1/2; Tea, 28 1/2; Rice, 29 1/2; Beans, 30 1/2; Corn, 31 1/2; Soybeans, 32 1/2; Pork, 33 1/2; Lard, 34 1/2; Butter, 35 1/2; Eggs, 36 1/2; Hides, 37 1/2; Wool, 38 1/2; Tallow, 39 1/2; Oil, 40 1/2; Flour, 41 1/2; Sugar, 42 1/2; Coffee, 43 1/2; Tea, 44 1/2; Rice, 45 1/2; Beans, 46 1/2; Corn, 47 1/2; Soybeans, 48 1/2; Pork, 49 1/2; Lard, 50 1/2; Butter, 51 1/2; Eggs, 52 1/2; Hides, 53 1/2; Wool, 54 1/2; Tallow, 55 1/2; Oil, 56 1/2; Flour, 57 1/2; Sugar, 58 1/2; Coffee, 59 1/2; Tea, 60 1/2; Rice, 61 1/2; Beans, 62 1/2; PAGE 11

EVOLUTION OF THE U. S. BATTLESHIP

HAS NARROW ESCAPE

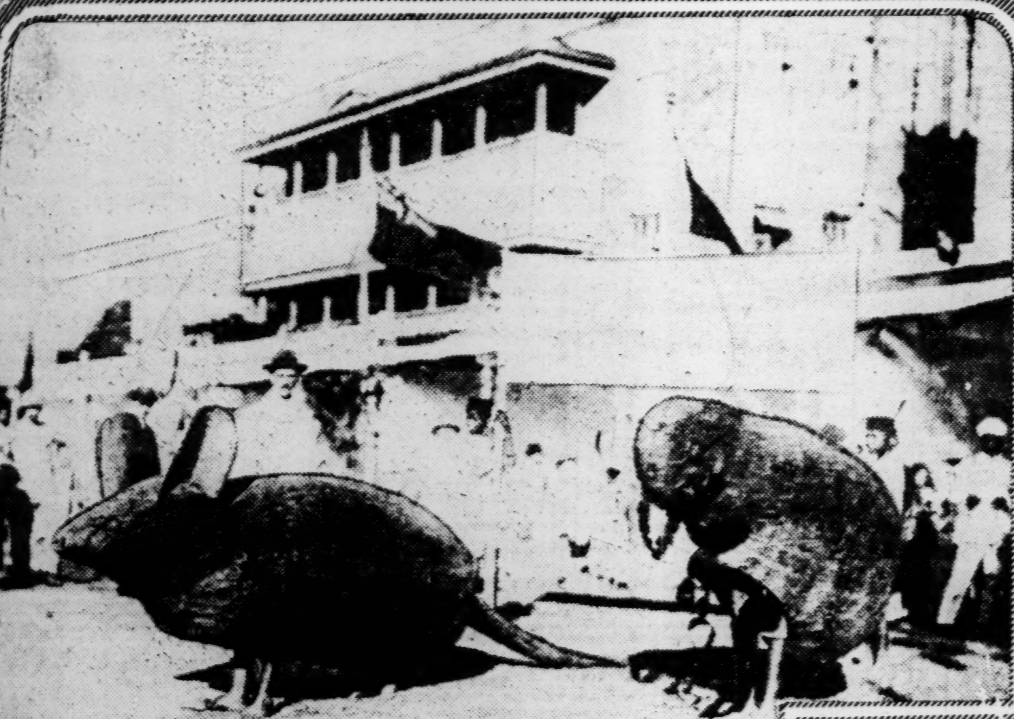

Secretary of the Navy Wilbur, left, and Admiral Eberle, Chief of Naval Operations, looking over a new set of models of warships which have been built in America.

A Frenchman jumping from the top of a train passing over the Seine at Paris. An ordinary umbrella which he used as a parachute, broke, and he struck one of the bridge parapets but was rescued.

A SPANISH STAR

SEEING IS BELIEVING

Teaching the people of Bombay, India, the dangers of rats and other pests during a clean-up week conducted by British Health officials.

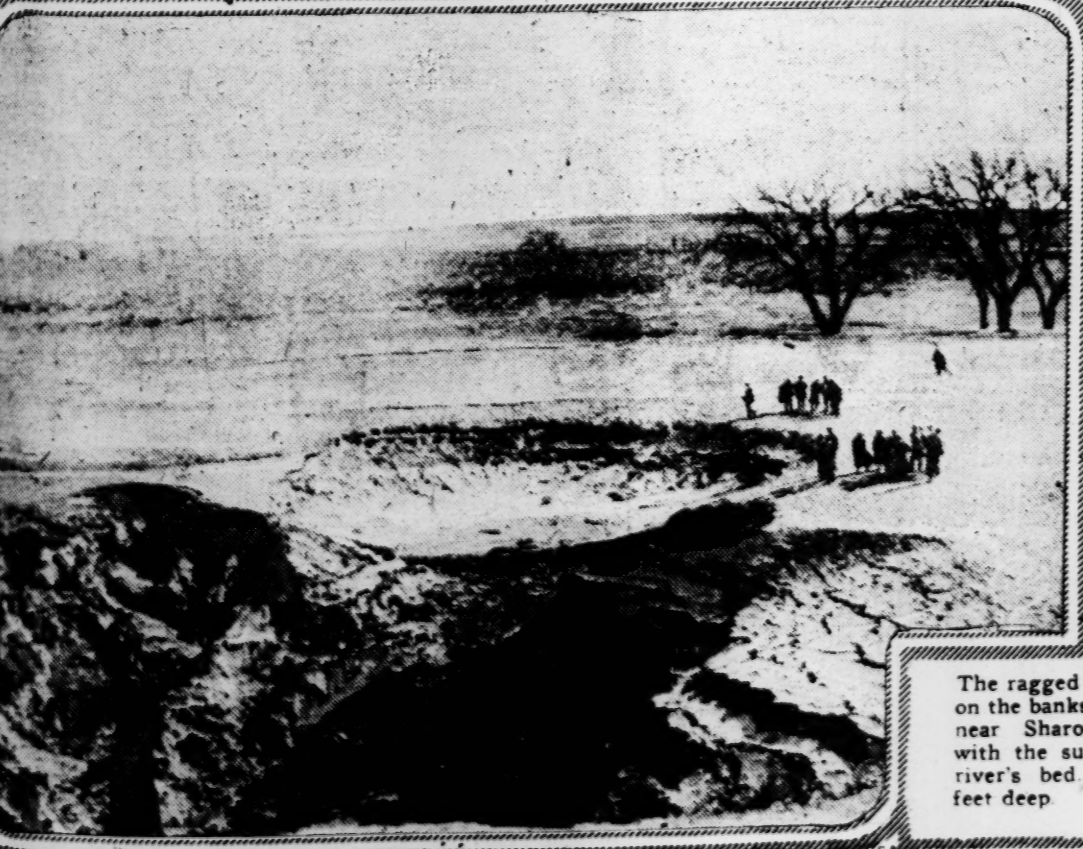

Srta. D'Alvarez of Madrid, who represented her country in the recent tennis matches at Monte Carlo.

AN AMERICAN COUNTESS

The Countess of Carnarvon, who was Miss Katherine Wendell of New York, with her children, Lord Rochester and Lady Penelope.

A RIVER FALLING IN

The ragged hole left in the earth on the banks of the Smoky River, near Sharon Springs, Kansas, with the sudden sinking of the river's bed. The abyss is 300 feet deep.

VIEW NEW STONE MOUNTAIN MODEL

Left to right are: Justice William Harman Black, chairman of the executive committee; Augustus Lukeman, the sculptor; Mrs. E. B. Williams, Mrs. H. Clay Foster, Miss Edith Loughborough, Mrs. Arthur W. Bingham, Hollins N. Randolph, President of the Stone Mountain Memorial Association; Mack Nornburg, manager of the New York campaign; and Arthur W. Bingham, members of the associations who are in New York to view the model of the new Stone Mountain Memorial on which Lukeman is working.

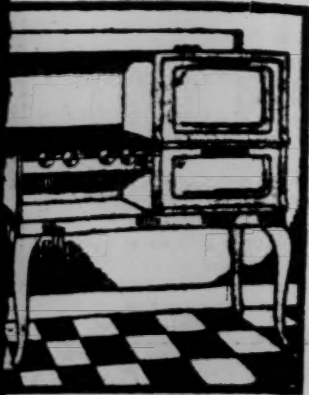

OFF FOR THE WAR GAME

Crown Prince Olaf, of Norway, on his way to participate in the winter military maneuvers of his country.
